Dear Students,

Happy Financial Year 2015-2016 to all of you!

Surprised! Do you think these greetings are not for you? If you think so, you are wrong. These are thoughtful greetings. These greetings are especially for those students who have not yet witnessed professional atmosphere and have not been part of any formal earning process.

You have already started appearing for University examination of MBA. For 1st year students, there is going to be SIP coming their way. Some of you have already been selected in certain companies for various profiles. Others are working to get SIP. 2nd year students are appearing for their final examination of MBA course. After this, they will be altogether in their respective jobs or business. Here is where Financial Year part comes into picture in all of yours lives. Doesn't matter what specialization you have, all of us need to have basic knowledge of all fields – HR, Marketing, Finance, Operations, IT and so on. This helps us improve in all dimensions of our lives.

This was one of the key notes of guests who had come to our institute for 1 day seminar on "Make in India". Even in your poster presentation competition, many people came up with creative ideas, pictorial presentation of what this theme means to you.

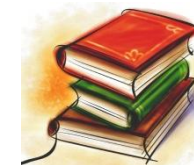

With my experience I can tell you that all these lessons play vital role in our professional and personal lives. Today what

appears to be small, may have long term impact on our lives. South African famous player "Jonty Rhodes" once said, "When I coach players for fielding, I don't push them to win. I insist on saving at least 1 run whenever ball comes to them..." I think this message is applicable on all walks of our lives. Every day - Make your old parents / grandparents smile at least once, Help needy at least once, let your friend know how much you care about her / him at least once; Don't miss that 1 mark in your exam; Don't be even 1 minute late in your exam and so on.

Your parents are looking up to you. They may not know what you did in college, what you learnt, how many competitions you won and who all those with whom you spend time are. They will understand your mark sheet only. Ensure that you prepare well for your written examination. You have almost 3 weeks more to prepare. In these 3 weeks, prepare each subject thoroughly. In case of any queries, meet respective subject teacher and get your queries resolved. Take care of your health in this summer season. Drink enough of water and have lot of juicy fruits. Avoid going outside especially in afternoon time. If required, do group study. Be focused. Keep your aim always in heart and soul. You will certainly perform well.

We all wish you a grand success in your examination!

Dr J John Peter

Make in India is the BJP-led NDA government's flagship campaign intended to boost the domestic manufacturing industry and attract foreign investors to invest into the Indian economy.

Manufacturing currently contributes just over 15% to the national GDP. The aim of this campaign is to grow this to a 25% contribution as seen with other developing nations of Asia. In the process, the government expects to generate jobs, attract much foreign direct investment, and transform India into a manufacturing hub preferred around the globe.

The logo for the Make In India campaign is an elegant lion, inspired by the Ashoka Chakra and designed to represent

India's success in all spheres. The campaign was dedicated by the Prime Minister to the eminent patriot, philosopher and political personality, Pandit Deen Dayal Upadhyaya who had been born on the same date in 1916.

One day seminar on "Make in India" was organized to enlighten the MBA students and make them aware of national level objective

Mr. Nitin Deshpande, Lead Consultant, Dnyanpeeth Academy and **Mr. Sunil Patil**, GM Sales & Marketing, Excellence Shelters Pvt Ltd guided students with their experience.

They shared various employment and business opportunities with everyone.

They expressed their opinions about various challenges for execution of Make in India policy across nation. These challenges are political, social, geographical, economical and external forces.

Students curiously asked various queries and they got satisfactory responses.

On 3rd March 2015, RMDSSOMS organized a Poster Presentation Competition under the title “MANIFEST” for MBA students. The theme for the Competition was Make in India: Challenges and Opportunities. Students participated in large number with fidelity and enthusiasm.

As Aristotle believed, to bring any change we must train our young minds. So was the idea for the competition and we got an astounding response. Though everyone endeavoured to do the best, but being a competition the judges had to adjudge the best efforts. . When it came to judging it was not how the poster had been created that was most important but the flow, clarity of layout, quality of the information contained within it and the presentation skills.

Students were advised to prepare a poster and give presentation. Students expressed their ideas through varied issues such as building best-in-class Manufacturing Infrastructure, Agricultural Development, Woman Empowerment, Go Green concept, Best out of Waste, Employability, Tourism and Hospitality and many more.

The Winners were awarded with Gold medal and a certificate and the runners-up with Silver medal and a certificate. What set the winners apart was their creativity, clarity, presentation skills and content.

The winners for the competition were Tejas Kacha and Amol Satav from MBA (First Year) and runners-up were Preeti Ranadive and Ramakrishna Madeti from MBA (Second Year). The Judges for the competition were Prof. Madhva Nagarhalli (HOD- Mechanical Deptt.) and Prof. Kalpana Amrutkar (Cultural Co-ordinator – RMDSTIC).
