

<i>Title of the Research Project</i>	Influence of fiber strength on fracture characteristics of normal and high strength concrete.
<i>Period of Research</i>	2016 - 2018
<i>Funding Agency</i>	Savitribai Phule Pune University
<i>Reference Number</i>	O.S.D./B.C.U.D./220 dated 06/05/2016
<i>Name of the Principal Investigator</i>	Mr. M. V. Bhogone
<i>Name of the Co-Investigator</i>	Mrs. J. P. Bhusari
<i>Grant Received (Rs.)</i>	1, 40, 000/-
<i>Objectives of the project</i>	<ul style="list-style-type: none"> • In this study, the effects of the fiber strength on the fracture properties are investigated in normal and high strength concrete. The effects of different types of fibers and dosages on fracture and mechanical properties are also proposed to be investigated
<i>Number of UG/PG Project Groups</i>	One PG student of M.E. (Structures) and one group of students from Final Year Civil Engineering are working on this research project.
<i>Publications out of this Research (if any)</i>	Nil
<i>Photograph of Equipment Fabricated / Instruments purchased</i>	Nil
<i>Any other information</i>	Nil
