

<i>Title of the Research Project</i>	Behaviour of concrete column confined with fiber composites loaded eccentrically
<i>Period of Research</i>	2016 to 2018
<i>Funding Agency</i>	Savitribai Phule Pune University
<i>Reference Number</i>	O.S.D./B.C.U.D./220 dated 06/05/2016
<i>Name of the Principal Investigator</i>	Mr. P. B. Kodag
<i>Name of the Co-Investigator</i>	Mr. L. A. Bhangale
<i>Grant Received (Rs.)</i>	1, 30, 000/-
<i>Objectives of the project</i>	<ul style="list-style-type: none"> • The proposed work aims to study the effect of different parameters on the structural behavior of FRP wrapped concrete columns loaded eccentrically.
<i>Number of UG/PG Project Groups</i>	One PG student of M.E. (Structures) and one group of students from Final Year Civil Engineering are working on this research project.
<i>Publications out of this Research (if any)</i>	Nil
<i>Photograph of Equipment Fabricated / Instruments purchased</i>	Nil
<i>Any other information</i>	Nil
