Activity: Health from 11.00 to 12.00pm conducted by Dr. S. P. Saptale

A healthy lifestyle is important for everyone. When we look after our physical health, we feel better too – fitter, more relaxed and better able to cope with things. This is especially important when you have a mental illness.

Benefits of healthy living

- Feeling better mentally – regular exercise can lift your mood and help you feel better
- Saving money – eating junk food, smoking, and drinking sugary drinks or alcohol are all expensive habits
- Fewer health problems – living a healthier lifestyle means a lower risk of developing many illnesses
- Taking control of your life – getting healthy helps you feel in control of your life.

Report on Webinar "Career Transformation with Japanese language"

E&TC Department of Sinhgad Academy of Engineering takes pleasure in organizing a webinar on "Career Transformation with Japanese language"

The main objective of the webinar is to help students to understand the challenges fresh Engineers are likely to face after normalcy is achieved.

RESOURCE PERSON:-

Ms. Sheetal Arote

Bilingual Engineer

Target Audience – All Branch engineering students.

Main points Highlighted in the webinar are,

Learning a new language is a fascinating adventure. It is a journey full of excitement, enthralling experience, occasional challenges, vivid illustration, unusual and unexpected encounters.

The countless benefits of acquiring a new language are undeniable. Of all the in-demand foreign languages, why choose Japanese?

She explored three compelling reasons.

First, the Japanese will set you apart from the crowd. It is different because it isn't an uncomplicated language to embrace.

Second, career-wise, Japanese is one of the top 5 most useful languages to study.

Last but not least, the colorful and vigorous cultural aspect of Japan. Japanese is the most popular choice among East Asian Languages, and the reasons are apparent.

Roughly 127 million people speak Japanese in Japan. One can also find sizeable Japanese speakers in Korea, Taiwan, England, Canada, Brazil, the USA, and the Philippines. It is also one of the most widely used languages on the Internet. While no official data seems to exist, it is generally assumed that a vast majority are monolingual. It means very few people speak any other language, including English. One main reason is they take pride in their native language, and there is no such thing as "English for Japanese."
