Dissertation Outline

The dissertation is organized chronologically in terms of the objectives accomplished.

- Chapter 1 gives background information about wireless sensor network, data aggregation and clustering.
- Chapter 2 gives literature review on the relevant areas required for the current research which contains types of data aggregation and method for the same.
- Chapter 3 in this chapter basic requirement analysis is done for the system.
- Chapter 4 this chapter describes problem statement for the system.
- Chapter 5 in this chapter focus is on system design with all types of diagram of Proposed system.
- Chapter 6 shows the system demonstration with screenshots of the system.
- Chapter 7 in this chapter discussion is on result and analysis of the system. Here discuss the performance comparison with help of NS2 method.
- Chapter 8 summarizes the conclusion and future scope of proposed system.
- Appendix A lists of abbreviation used in the dissertation.
- Appendix B lists of publication done on current work.
- Appendix C lists the references for the system.

PRADNYA WAGHMARE

PROJECT DIRECTOR, SOCIAL SCIENCE & MOTIVATIONAL
SPEAKING, WORKER, COUNSELLOR & POET, DESIGNER

OBJECTIVE

Upliftment of the downtrodden.

SKILLS

I have a practical outlook to life. While others discuss problems and issues, I am focused on solving them.

EXPERIENCE

CHIEF PROJECT DIRECTOR, SAMTADOOT CELL & SPECIAL CELL -
DARTI -
OCT 2015 TO PRESENT

As Chief Project Director of the Samtadoot Cell, I have complete control and command over 390 Samtadoots (field operatives) and 52 officers and staff. The field operatives work at Taluka level all over Maharashtra state. The work involves reaching out to the grassroots level of the populace. I have designed and executed several pioneering projects in Maharashtra.

The Maharashtra Abhiyan conducted in 2017 brought 20,000 farmers into sericulture, in a campaign conducted over two months. This is against 7000 farmers brought into sericulture in the previous 10 years of departmental efforts.

I designed and executed the Samta-RTE campaign which resulted in tremendous growth in students' enrolment. From 2017 to 2019, this campaign enabled 1000 students of poor families to get admission in reputed schools. Out of the total 1740 students who got admission in 2017 in Maharashtra, my campaign contributed 1740. In the period of 2017-2019 a total of 60,000 families were surveyed and their data was collected and filled online, resulting in 1000 actual admissions.

I have conceptualized, designed and executed the Samvidhan Sakshar Gram campaign involving village level awareness about our Indian Constitution. In the first round held in 2019, 72 Gram Panchayats were taken up for intensive awareness generation and these villages are proud to have developed excellent fraternity among themselves. Fraternity has replaced the inherent casteism, tribalism, and illiteracy. The Govt. of Maharashtra has appreciated this campaign and has decided to upscale this to cover the entire state.

OBPRADNYA WAGHMARE

IMPROVING DISADVANTAGED SOCIAL SITUATION
STRENGTHEN THINKING AND ACTION CAPABILITY

I designed and executed the Sansthaant-Swachh campaign in 2013. This was intended to increase the outreach of the Govt. Swachh scheme. As a result of this intensive campaign a total of 1800 new students were enrolled in the scheme, as against 7926 students enrolled in 2012 by departmental efforts.

My campaigns are designed to be complimentary to the government efforts and my team acts as a force multiplier.

As Project Director of the Special Cell, I have conceptualized and initiated a training program for domestic workers involving hard competence, soft competence and life competence. This is the first program of its kind in India. This is reaching out to 3360 domestic workers. Another program for strengthening the capacities of Women Self Help Groups has also been conceptualized by me and this is reaching out to the village level SHGs.

SUPERINTENDENT • SANCHI SWADHAR SHELTER HOME • 2009 TO 2015

Was responsible for the running and maintenance of a shelter home for destitute women. Besides administration, the work involved counseling and resettlement of the women. I have acquired special skill in counseling and have been instrumental in rehabilitating around 172 women during this tenure.

Workshop theme: Navdurga

(8-10 March, 2021)

Session Report

Date: 10/03/2021

Time: 02:45pm-03:30pm

Session No: VI

Name of Resource Person: Mrs. Pradnya Pophalekar, Security Analyst, IQSPL, Pune

Title of Session: Cyber Security

Introduction of Speaker:

Mrs. Pradnya Pophalekar is a Senior Security Analyst and Lead Trainer in Intelligent Quotient System Pvt. Ltd., Pune. She is having 12 years of professional experience Information Technology training, expertise in Information Security Audits and VAPT of applications and network infrastructure. She has expertise in corporate training and dialogue. She has several Professional Certifications like ISO27001 Lead Auditor, Certified Ethical Hacker (CEH), Cisco Certified Network Associate (CCNA) and SSC/Q912- NASSCOMM Certified Master Trainer (Penetration Testing). She Conducts corporate trainings related to cyber security and web application security. She has conducted Seminars and workshops in associated Colleges and Universities on Cyber Security and current trends and techniques. Especially, she has conducted MIIRD(India) sponsored Faculty Development workshops in various engineering and non-engineering colleges collaborated with Shivaji University Kolhapur.

Contents covered:

The objectives of the session were:

To create awareness among women regarding;

- Crimes related to Social Networking
- Phishing / Nigerian Scams
- Software & Internet Piracy
- Online Banking Frauds

Details of the topic discussed are:

Cyber Crime is a criminal activity which is committed with the use of Computing or Electronic devices and Internet. Cyber-crimes are increasing rapidly in India and worldwide. Many crimes are targeted towards women. The Metro cities like Bangalore, Mumbai, Pune, Delhi are the

common targets. Social Networking websites are designed to make social life more active and stimulating. Social network can help you to maintain existing relationships with pictures and messages, and establish new ones by reaching out to people you have never met before. Phishing is the criminal activity attempting to get sensitive information such as usernames, passwords and credit card details by deceptive means in an electronic communication. Online Banks & Shopping Websites are very common targets of phishing activities.

Cyber bullying is an individual or group of people that intentionally and repeatedly inflict harm on another person most commonly women and children through electronic forms of communication to the point where the victim feels harassed or unsafe.

Hackers use various technologies for cyber bullying such as:

- Social networking sites such as Facebook, Twitter, MySpace etc.
- Mobile phone texting
- Videos
- Picture messages
- Instant messages
- Emails
- Chat rooms
- Blogs
- Phone calls

Recommendations for personal security of women on internet:

1. Never click on any suspicious link either in an email, SMS or WhatsApp.
 2. If required copy the link and open it in another browser tab but not in the email itself.
 3. Check for the phishing websites before entering your username and passwords.
 4. Always check that the websites are using https and not just http.
 5. Be careful while updating your personal status on Facebook and WhatsApp.
 6. Never accept friend request from a stranger
 7. Don't share your personal information unless and until it is required; either on websites or phone calls; such as your DoB, Address, Gender, phone number, email-id.
 8. Be careful while posting your personal photographs on social networking sites.
- have attended, information about my friends and relatives, my current location, what do I upload or download. Precautionary measures suggested by her are as follows.

Time: 02:45pm-03:30pm

Session: III

Name of Research Person: Ms. Vinita Singh, Director, GOrganic & GOrganic Fashion Pvt. Ltd., Netherlands, Europe.

Title of Session: Women: Power Within

Introduction of Speaker:

She is a young adult Indian lady. Her name is Vinita Singh. She is a successful entrepreneur and Director, GOrganic & GOrganic Fashion Pvt. Ltd., The Netherlands, Europe. She grew up to become a psychologist and to be able to do complementary studies in India and in Oxford. She had experiences working in the Human resources education and development.

Content Covered:

Firstly, she talked about the relevance of celebrating "International Women's Day". She also discussed the significance of Nav Durga and its relation with Women's Day.

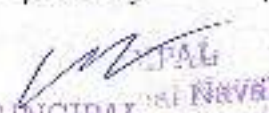

Eight years ago, she found an orphanage some 2 hours distant from Bangalore, where she lived for around 5 years in order to study and work. She also mentioned in her talk that 'Nothing is impossible to a willing heart'.

She had a strong belief that every woman has a tremendous power to achieve anything in life. Relating this with her own life example she said, some 2 years ago, she was having financial difficulties to sustain the orphanage due to lack of sponsors and volunteer work. But being also an entrepreneur, she managed to face the worst moments and went to develop a business that could be a long-term source to sustain the orphanage. She launched a business of totally organic baby's clothes (Go Organic) where the cotton and the whole cycle of production are certified.

She also mentioned that, now, she has managed to get some designers here in The Netherlands and in Milan and production plants in India (around Bangalore).

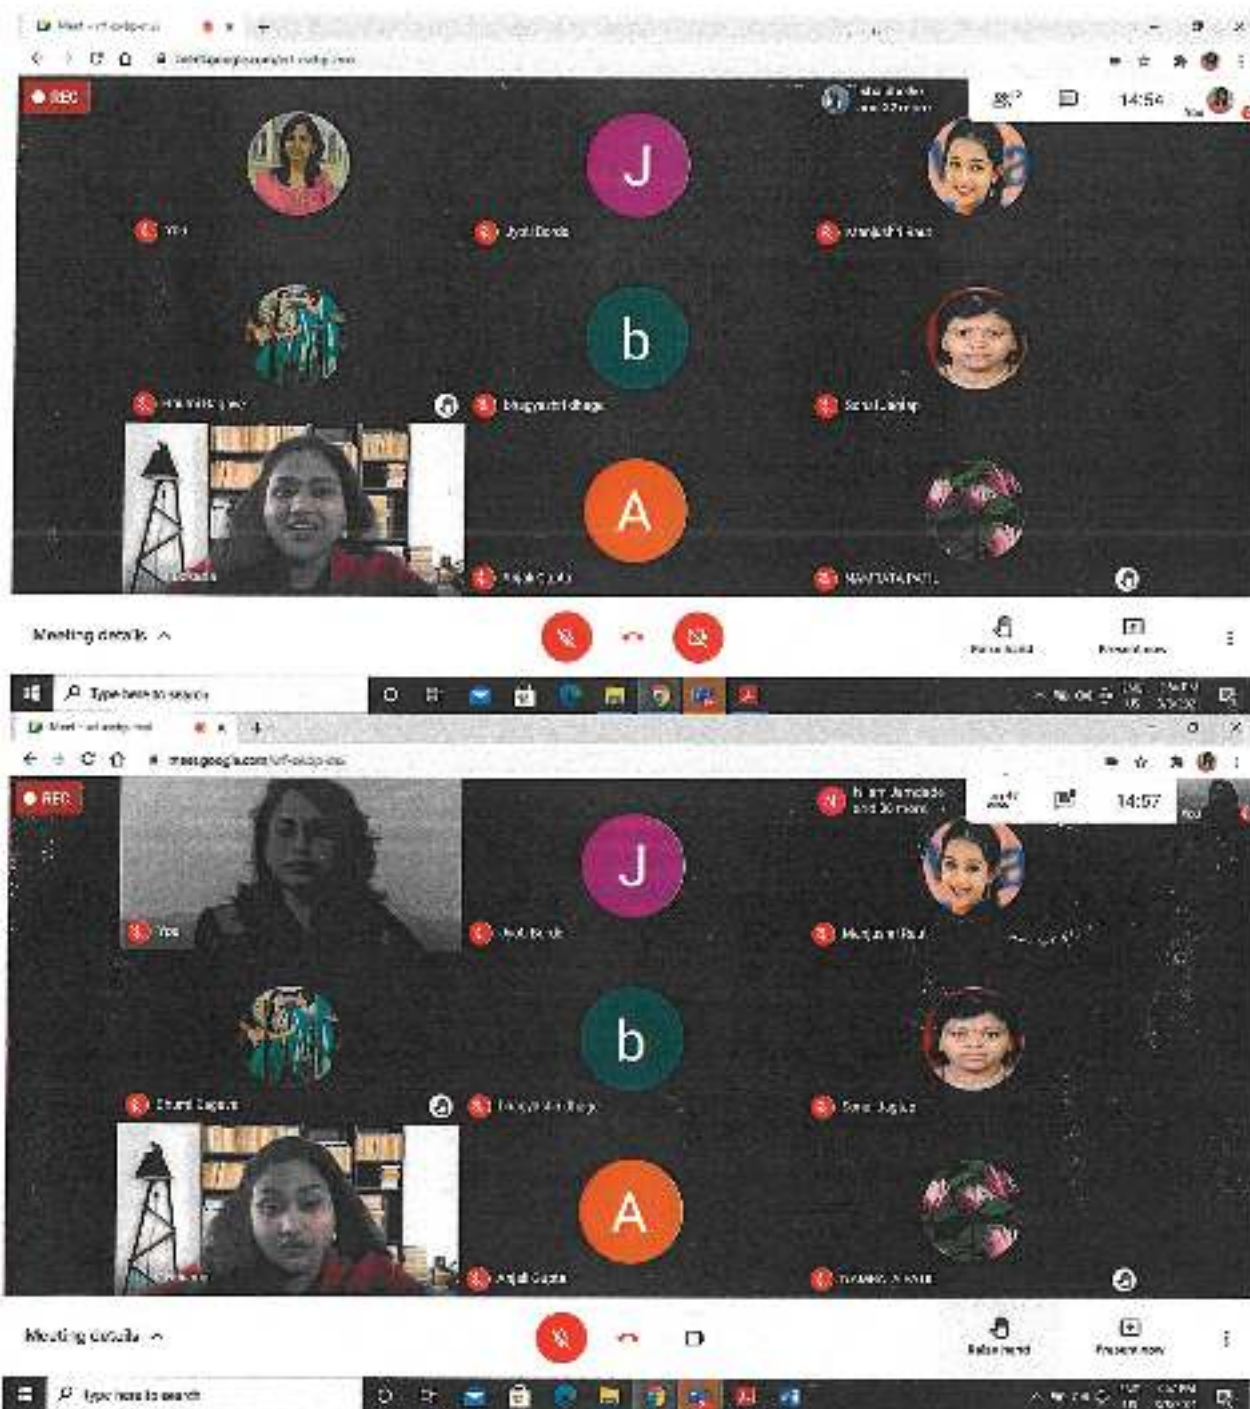

She is also committed to teach the kids that are in age to work. In this way, the whole set of work is becoming sustainable.

At the end, she talked about a little bit of Vedas and she gave the example of Duryodhana from Upanishad: Mahabharata, in which she explained that we have to do our part in life. Right and wrong is not in our hands. So we should utilize our energy to do the best in our life and keep going ahead with full of positivity.

7.1.1

Date:19/01/2021

Time:10.00am -10.30am

Department of Electronics and Telecommunication organized Two Days webinar on "Cyber Crime against Women: Precaution and Strategies" in association with National Commission for Women (NCW), New Delhi, on 19th and 20th January 2021. The purpose of this webinar series is to create awareness on women safety and respect towards women in society and creating awareness about not disturbing anyone's private life by using electronic communication gadgets, how to use gadgets, online safety precautions.

On behalf of SKNCOE, Department of Electronics and Telecommunication Engineering would like to thank National commission for Women (NCW), New Delhi for sponsoring this webinar series.

A wide publicity was given by sharing flyers and brochure via what's app and emails to all colleges under different Universities. Many participants have shown interest in webinar and students from various colleges and faculty members attended this webinar series.

NCW sponsored webinar on "Cyber Crime against Women: Precaution and Strategies" inaugurated virtually in online mode using Google meet platform. Virtual dyes was honoured by Chief guest Ms. Tejaswini Gautam, IPS, Superintendent of Police from Alwar, Rajasthan, Vice Principal SKNCOE, Pune, Dr. K. R. Borole, Head of E&TC Engg department, Dr. S. K. Jagtap, Webinar Coordinator K. A. Pujari. For Inauguration ceremony overall co-ordination was done by Prof. P. G. Chilveri.

Introductory speech stating objectives of webinar series was given by Prof. K. A. Pujari. She narrated about various NCW initiatives and extended gratefulness towards NCW for honoring us by sanctioning grant for this webinar.

Head of the department, Dr. S. K. Jagtap addressed the overall gathering about the cyber security and online safety. In her talk she mentioned that this awareness is utmost important in this digital era. She also expressed gratitude to NCW for sanctioning grant on this needy topic webinar series.

Vice Principal SKNCOE, Pune, Dr. K. R. Borole, enlightened audience Fundamentals of Cyber-crime against women and also elaborated on increasing cyber crime during lockdown period in pandemic situation of COVID-19 and by following minute safety rules and taking precautions while using electronic gadgets, how to protect ourselves from cyber crime.

Ms. Tejaswini Gautam, IPS, Supretendant of Police from Alwar, Rajasthan was kind enough to accept our invitation and delivered a Keynote Speech on Overview of Cyber crime against women: precaution and strategies.

The webinar series was conducted two days in six online sessions on Google meet platform.

Also this webinar series was made live by link on YouTube.

Day 1 : 19th Jan 2021 :- <https://youtu.be/5W7ZKxGal8>

Day 2 : 20th Jan 2021 :- <https://youtu.be/5W7ZKxGal8>

SESSION 1 (DAY 1)

Date:19th Jan 2021

DR. SANKET

PRINCIPAL
Smt. Kashibai Navale
College of Engineering
Vadgaon(Bk.), Pune-41

7.1.1

Time: 10:30am -11:30am

Session:1

Name of Resource Person: Ms. Tejaswani Gautam, IPS, SP Alwar, Rajasthan

Contents covered:

- Cyber Security: Internet safety or online safety or cyber safety or E-Safety is trying to be safe on the internet and is the act of maximizing a user's awareness of personal safety and security risks to private information and property associated with using the internet, and the self-protection from computer related crime
- Importance of Cyber Security for Youth/ Women: internet safety is highly salient for today's youth as they spend up to 10 hours a day using various forms of media. The ever-increasing popularity of social media, including websites such as Facebook and Twitter, have contributed to youth's time investment in the internet. The vast majority of adolescents have internet access and most report daily use. In India 71 crore people are using the Internet, out of which, 25 crores are women. 80% of people are falling prey to cyber-crimes and 63% of people don't know where to lodge complaints on cyber crimes
- Types of Cyber Crimes:
 1. Social Media related Crimes: Cyber Bullying/Stalking/Sexting, E-Mail Phishing, Email Hacking Intimidating Email, Online Matrimonial Fraud, Provocative Speech, Fake/Impersonating Profile Impersonating Email, Job Fraud, Profile Hacking
 2. Financial Cyber Crimes: Business Frauds/Email Takeover, Debit/Credit Card Fraud/SIM Swap Fraud, E-Wallet Related Fraud, Fraud Call/Vishing, Internet banking Related Fraud
 3. Advanced Cyber-crimes: Ransomware, Hacking
- CYBER RISK: Some Shocking Statistics around the world
 1. To hacking specific information hacker need only 39 Sec.
 2. 300% Increasing reported cyber-crime cases since COVID-19 mostly crimes against women
 3. 95% Cyber security breaches due to human error
 4. 78% Organisations without a cyber security contingency plan
 5. 33% School/College students who experienced cyber bullying
 6. 27% Risk of depression increases by excessive use of social media
- Top Five Cyber Security Tips:
 1. Always keep your systems/devices (laptop, mobile) updated with latest patches.
 2. Protect systems/devices through security software such as anti-virus with the latest version.
 3. Always download software or applications from known trusted sources only. Never use pirated software on your systems/devices
 4. Ensure all devices/accounts are protected by a strong PIN or passcode. Never share your PIN or password with anyone.

DR. SANKET

Dr. Sanket Navale
College of Engineering
Vadgaon (Bk.), Pune-41

7.1.1

5. Be a responsible Cyber user. Follow Cyber Hygiene and responsible behavior over the net.

• **DO's and DON'T's**

1. Do not share your net-banking password, One Time Password (OTP), ATM or phone banking PIN, CVV number etc.
2. Always change the default admin password on your Wi-Fi router to a strong password known only to you. In addition, always configure your wireless network to use the latest encryption (contact your network service provider, in case of any doubt)
3. Be cautious while browsing through a public Wi-Fi and avoid logging in to personal & professional accounts such as e-mail or banking on these networks.
4. Always use virtual keyboard to access net-banking facility from public computers; and logout from banking portal/website after completion of online transaction. Also ensure to delete browsing history from web browser (Internet Explorer, Chrome, Firefox etc.) after completion of online banking activity.
5. Do scan all e-mail attachments for viruses before opening them. Avoid downloading e-mail attachments received in e-mails from unknown or un-trusted sources.
6. Be careful while sharing identity proof documents especially if you cannot verify the authenticity of the company/person with whom you are sharing information.
7. Note the IMEI code of your cell phone and keep it in a safe place. The operator can blacklist/block/trace a phone using the IMEI code, in case the cell phone is stolen.
8. Observe your surroundings for skimmers or people observing your PIN before using an ATM.

• **Laws Relating to Cybercrime in India, IT Act, IPC**

1. Tampering with Computer source documents (Sec.65)
2. Hacking with Computer systems, Data alteration (Sec.66)
3. Sending offensive messages through communication service, etc (Sec.66 A)
4. Retains any stolen computer resource or communication device (Sec.66B)
5. Fraudulent use of electronic signature (Sec.66C)
6. Cheats by personating (Sec.66D)
7. Publishing obscene images (Sec.66E)
8. Cyber terrorism (Sec.66F)
9. Publishes or transmits unwanted material (Sec.67)
10. Publishes or transmits sexually explicit material (Sec.67A)
11. Abusing children online (Sec.67B)
12. Preservation of information by intermediaries (Sec.67C)
13. Breach of Confidentiality and Privacy (Sec.72)
14. Disclosure of Information in breach of contract (Sec.72A)
15. Publishing false digital signatures, certificates (Sec.73 & 74)
16. Sending threatening messages by email (Sec.503)
17. Sending defamatory messages by email (Sec.499)
18. Forgery of electronic records (Sec.463)

DR. SANKET

7.1.1

19. Bogus websites, cyber frauds (Sec.420)
20. Email spoofing (Sec.463)
21. Web-Jacking (Sec.383)
22. E-Mail Abuse(Sec.500)
23. Online sale of Drugs in NDPS Act, 1985
24. Online sale of Arms and showcasing of arms online under Arms Act, 1959

SESSION 2 (DAY 1)

Date: 19th Jan 2021

Time: 11:45 am to 1:15 pm

Name of Resource Person: Ms. Seema Dixit

The objectives of the session are:

- Introduction to Cyber security and its need
- Introduction to Malware and Protective Measures
- Data Security
- Desktop Security
- Protecting Personal Devices

Details of the topic discussed are:

Cyber-security is the practice of protecting systems, devices, our digital information, networks and programs from digital attacks. These attacks are usually aimed at accessing, changing or destroying sensitive information, extorting money from users or interrupting normal business processes.

Implementing effective cyber security measures is particularly challenging today because there are more devices than people, and attackers are becoming more innovative.

In today's digital era, most of the time, we are connected to the internet and are online.

We perform lots of things online.

- We connect to social networking sites like Facebook, WhatsApp and twitter.
- We buy grocery online, purchase clothes and electronic gadgets online.
- We book our vacations and holidays online.
- We book our tickets online.
- We go Net banking.
- We access e-library.

While doing all these activities, we share lot of our personal information like our email-id, passwords, phone number, address, date of birth, credit card/debit card numbers.

Specially women should be careful while sharing information with strangers

This is the juicy information; the hackers are looking for.

She mentioned that women should be extremely careful on social networking sites like Facebook while updating their status and accepting friend request from a stranger or without verifying whether the request is coming from genuine friend, not just looking at the profile picture and name.

DR. SANKET

7.1.1

Some Recommended precautions against cyber attacks

- Always look for the website using https and not http.
- Make sure you are not using same email-id to create your accounts on different websites for different reasons. Especially you should not use the email id which is associated with your bank account.
- We must use different passwords for every account. Password should be complex; more than seven characters. It should be the combination of small letters, capital letters, numbers and characters on the keyboard.
- You should disable the GPS when not required
- Do not use public wi-fi to perform money transactions, to access social networking sites like Facebook. To access your email etc.

Malware

Malware typically consists of code developed by hackers, designed to cause extensive damage to data and systems or to gain unauthorized access to a network.

Malware is typically delivered in the form of a link or file over email and requires the user to click on the link or open the file to execute the malware.

Malware types discussed in webinar:

- Viruses
- Worms
- Trojans
- Adware
- Spyware
- Ransomware

Symptoms of Infection:

- It acts strangely
- Files are not accessible
- Unusual error messages
- Jumbled printouts
- Double file extensions

Her Recommendations for protection against Malware:

- Use updated and licensed antivirus software
- Update and patch the operating system and applications regularly
- Follow best practices while using internet.
- Do not insert removable devices/USB devices without scanning
- Do not download software from untrusted websites
- Don't open email attachments without verifying the sender.
- Don't click on the suspicious link
- On your windows computer, configure your personal firewall, windows defender firewall or smart screen filter properly to protect yourself from malicious software.

Data/Information Security:

DR. SANKET

7.1.1

The information that should be secured includes:

- Your Personal Information like your passwords
- Stored data: On hard drives, Removable media, Smart phones
- Data in transit like emails

Goals of data security:

CIA triad is the backbone of Information Security

- C: Confidentiality
- I: Integrity
- A: Availability

Cryptography and Encryption can be used to achieve the goals of data security.

- Encryption is used to achieve confidentiality.
- Integrity can be achieved using hash function
- Backup is the good solution to access the original data if at all it gets corrupted, deleted or modified.

Recommendations for Security of home Wi-Fi Routers:

- Change Default Password of Router.
- Change default SSID name.
- Disable SSID broadcast.
- Use Encryption methods WPA, WPA2
- Enable MAC Address Filtering
- Enable Router Firewall
- Update Router Firmware
- Turn off Router when not in use

Her recommendations for personal security of women on internet:

1. Use a strong password
2. Deploy Multi Factor Authentication Methods
3. Use Licensed and updated Antivirus on mobile as well as computers and laptops
4. Check websites for HTTPS
5. Change your home internet routers default password
6. Use a standard account instead of administrator to access your device.
7. Be cautious at all times while clicking on links
8. Be careful while downloading free apps and software
9. Don't store sensitive data on your PC
10. Maintain good backup of your important data.
11. Physically secure your personal devices.

SESSION 3 (DAY 1)

7.1.1

He mentioned that cyber crime is not gender specific but in most of the cases victims are women. He shared various news clippings about different cyber crimes and attacks happened recently. He mentioned that as per information available on internet, in April 2018, intruding activities in Indian cyberspace by neighboring country China is around 35%. In India, Maharashtra is most vulnerable state for cyber crimes and 46% websites have high severity cyber security vulnerabilities. He further mentioned that approximately 91% of cyber attacks start with an email! We need to safe guard our assets and resources. He talked about CIA model- Confidentiality, Integrity and Availability. He explained as Cyber security refers to the body of technologies, processes and practices, designed to protect networks, devices, programs, and data from attack, damage, or unauthorized access. He further explained about the devices like bank account info, recent files, deleted files, contacts, credit card numbers, passwords, social security numbers, text messages, phone calls, name lists and addresses, recently visited sites and recent locations which carry personal data and are vulnerable to cyber crimes. It is related to money from our bank account, Emails get hacked, we are watched 24X7, Social Networking sites seems dangerously social, we get dangerously stalked or blackmailed, because they know what do we do minute to minute, how and where I celebrate the events, my fashion brands, where I travel, What are my interests, My information like school/ college I have attended, information about my friends and relatives, my current location, what do I upload or download. He further explained about cyber attacks and different methods of cyber attacks. Cyber attack is an assault launched by Cybercriminals using one or more computers against a single or multiple computers or networks. A cyber attack can maliciously disable computers, steal data, or use a breached computer as a launch point for other attacks. Cybercriminals use a variety of methods to launch a cyber attack, including malware, phishing, ransomware, denial of service, among other methods. He mentioned that Cyber Safety is NOT gender specific (cannot be) but Cyber Safety is definitely a concern for women, female children. He said that we make the task easy for the criminal minds by posting selfies, personal photos on social media. We keep forwarding everything coming to us, especially on Whats app. We can easily lured in to traps of freebies being posted on SMS and WEB. We click on untrusted links, we fall prey to believe in bank fake calls and end up exposing our credentials, pins etc. We are so casual in operating internet banking, mobile banking and ATMS. Many a times we easily share sensitive information like Credit Card/ Debit Card PINS, CVV Nos. etc through messages. We download un-required applications and permit them with all permissions on our mobile phones. We use computers without appropriate protections like legal and genuine antivirus Software. We all are bitten by "it cannot happen to me syndrome" According to a survey, more women use the Internet to enrich their relationships as compared to men. Young women, especially in 18-24 age, experience certain types of harassment, approximately 26% of these young women have been stalked online, and 25% were the target of online sexual harassment. The growing reach of the Internet and the rapid spread of information through mobile devices has presented new opportunities that could put some women at risk, so it's important to be mindful of the dangers. He further discussed about tips for facebook privacy, Whatsapp cyber security challenges and mentioned following points to ensure the cyber safety for women:

DR. SANKET

7.1.1

1. Do not share passwords to anyone. It may sound silly.
2. Do not leave your webcam connected. Many applications are capable of turning on your camera and record your movements without your knowledge. As a precaution always disable camera permission and keep the lens of your camera closed or covered when not in use.
3. Don't meet online acquaintances alone.
4. Reveal only as much as needed.
5. Update all operating systems on you devices.
6. Secure your devices with anti-virus software Both Android and MAC devices are at risk from malicious software invading and taking over your life. Always install a reliable security system like Norton Security in all your devices.
7. Read the privacy policy and terms of service of any service you use.
8. Block people you don't want to interact with and decline friend requests from people you barely know.

SESSION 4 (DAY 1)

Date: 19th Jan 2021

Time: 3:30 pm to 5:00 pm

Name of Resource Person: Mr. Arpit Doshi

The objectives of the session were:

To create awareness among women regarding:

- Crimes related to Social Networking
- Phishing / Nigerian Scams
- Software & Internet Piracy
- Online Banking Frauds

Details of the topic discussed are:

Cyber Crime is a criminal activity which is committed with the use of Computing or Electronic devices and Internet. Cyber-crimes are increasing rapidly in India and worldwide. Many crimes are targeted towards women. The Metro cities like Bangalore, Mumbai, Pune, Delhi are the common targets. Social Networking websites are designed to make social life more active and stimulating. Social network can help you to maintain existing relationships with pictures and messages, and establish new ones by reaching out to people you have never met before. Phishing is the criminal activity attempting to get sensitive information such as usernames, passwords and credit card details by deceptive means in an electronic communication. Online Banks & Shopping Websites are very common targets of phishing activities.

Cyber bullying is an individual or group of people that intentionally and repeatedly inflict harm on another person most commonly women and children through electronic forms of communication to the point where the victim feels harassed or unsafe.

DR. SANKET

7.1.1

Hackers use various technologies for cyber bullying such as:

- Social networking sites such as Facebook, Twitter, MySpace etc.
- Mobile phone texting
- Videos
- Picture messages
- Instant messages
- Emails
- Chat rooms
- Blogs
- Phone calls

Examples of Cyber bullying:

- Sending mean messages or threats through email or cell phone
- Posting hurtful messages on social networks or web pages
- Spreading rumors online or through texts
- Posting embarrassing photos or secrets and spreading them
- Recording unauthorized videos and uploading them
- Hacking into account and posting damaging messages
- Stealing identity of person
- Leaving someone out of online groups
- Creating a fake online persona to bully others
- Sexting

In his presentation, many recent case studies were discussed regarding cybercrimes and threats and regarding the precautionary measures that women can take to protect herself.

Recommendations for personal security of women on internet:

1. Never click on any suspicious link either in an email, SMS or WhatsApp.
2. If required copy the link and open it in another browser tab but not in the email itself.
3. Check for the phishing websites before entering your username and passwords.
4. Always check that the websites are using https and not just http.
5. Be careful while updating your personal status on Facebook and WhatsApp.
6. Never accept friend request from a stranger.
7. Don't share your personal information unless and until it is required; either on websites or phone calls; such as your DoB, Address, Gender, phone number, email-id.
8. Be careful while posting your personal photographs on social networking sites.

SESSION 5 (DAY 2- Session 1)

Date: 20th Jan 2021

Time: 10:30 am to 12:00 pm

Name of Resource Person: Ms. Pradnya Pophalikar;

DR. SANKET

7.1.1

The objectives of the session were:

- How to use Browser Securely and its need
- Mobile Security and Protective Measures
- Secure Digital transactions
- Secure Practices

Details of the topic discussed are:

Cyber security is the practice of protecting systems, devices, our digital information, networks and programs from digital attacks.

Biggest data leaks in India recently occurred

1) SBI Quick

Nature of leak: Unprotected Server

Nature of data leaked: Phone numbers, partial bank account numbers, bank balance, recent transaction

2) Indian Credit card stolen

Nature of leak: Data Theft

Nature of data leaked: Credit card numbers

3) Nuclear power plant hack

Nature of leak: Malware attack

Nature of data leaked: Administrative data

4) Just Dial Breach

Nature of leak: Unprotected Sfr

Nature of data leaked: Names, Numbers, address

In today's digital era, most of the time, we are connected to the internet and are online. We perform lots of things online.

- We connect to social networking sites like Facebook, Whats-App and twitter.
- We buy grocery online, purchase clothes and electronic gadgets online.
- We book our vacations and holidays online.
- We book our tickets online.
- We go Net banking.
- We access e-library.
- We do receive emails

While doing all these activities, we perform common Mistakes While Using Internet
Replying to unknown emails without verifying sender email.

Recommended precautions against cyber attacks

- Always look for the website using https and not http.
- Make sure you are not using same email-id to create your accounts on different websites for different reasons. Especially you should not use the email id which is associated with your bank account.
- Verify sender email address before opening attachment.
- We must use different passwords for every account.

DR. SANKET

7.1.1

- Password should be complex; more than seven characters. It should be the combination of small letters, capital letters, numbers and characters on the keyboard.
- You should disable the GPS when not required
- Do not use public wi-fi to perform money transactions, to access social networking sites like Facebook. To access your email etc.

Phishing Attack

What is a **phishing attack**?

Phishing is a type of social engineering **attack** often used to steal user data, including login credentials and credit card numbers. It occurs when an attacker, masquerading as a trusted entity, dupes a victim into opening an email, instant message, or text message.

Anti-phishing detection and prevention

Automatic Analyzing - Using Free/Paid Services like

1. Checkphish.ai
2. Phishtank.com
3. Gotphish.com
4. Virustotal.com

Prevention Technique

2FA - Two-Factor Authentication

- Something you know - like username and password + Something you have - like OTP
- It protects against: Phishing, Social Engineering and password brute force attacks

Email Security:

- Email Header analysis

Recommended protection against Phishing Attack:

- Follow best practices while using internet.
- Don't open email attachments without verifying the sender.
- Don't click on the suspicious link
- On your windows computer, configure your personal firewall, windows defender firewall or smart screen filter properly to protect yourself from malicious software.

Browser Security

Browsing Threats

1. Ad-ware
2. Pop ups
3. Trackers
4. Malicious Scripts

Browser threat demonstration using : clickelickelick.click -which tracks your web activity

Browser add ons for secure browsing

1. Unblock origin: *uBlock Origin* is not an "ad blocker", it's a wide-spectrum content blocker with CPU and memory efficiency as a primary feature.

7.1.1

2. Privacy Badger : Privacy Badger is a browser add-on that stops advertisers and other third-party trackers from secretly tracking where you go and what pages you look at on the web. If an advertiser seems to be tracking you across multiple websites without your permission, Privacy Badger automatically blocks that advertiser from loading any more content in your browser. To the advertiser, it's like you suddenly disappeared.
3. HTTPS everywhere: HTTPS Everywhere is an extension created by EFF and the Tor Project which automatically switches thousands of sites from insecure "http" to secure "https". It will protect you against many forms of surveillance and account hijacking, and some forms of censorship.

And many more add ons are available to secure your browsing

Duck-Duck go search engine: Duck-Duck Go is an internet search engine that emphasizes protecting searchers' privacy and avoiding the filter bubble of personalized search results. Duck-Duck Go distinguishes itself from other search engines by not profiling its users and by showing all users the same search results for a given search term.

Private Browsing

Private Browsing does not save your browsing information, such as history and cookies, and leaves no trace after you end the session. Firefox also has Enhanced Tracking Protection, which prevents hidden trackers from collecting your data across multiple sites and slowing down your browsing.

Recommendations for Browser Security

- Use Private window option.
- Keep browser updated
- Do not store your password in browser
- Use browser popup blocker
- Use browser add-ons for secure browsing
- Use VPN in open Wi-Fi zones

Smartphone Security

Smartphone security is an essential issue today especially now that more people are working remotely, and keeping your smart phone free from security risks can help ensure your personal and professional information is safe and secure. However, keeping your device safe from smart phone threats, like hackers, trojans and more, can be challenging.

The basics: three layers of smart phone security

According to smart phone technology experts, all have three basic levels of security you should use to keep them safe:

- **Device protection:** Device protection allows remote data "wiping" if your physically device ever ends up lost, stolen, or in the wrong hands.
- **Data protection:** Your company has a lot of private data on its devices and servers. Data protection stops this information from being transferred over to different networks or devices that are not related to your company (personal devices or apps running on the same networks).

DR. SANKET

PRINCIPAL
Smt. Kashibai Navale
College of Engineering

7.1.1

- **App-management security:** Each app on your smart phone has its own information in it. Apps have their own built-in security features to keep the information within them safe.

Secure Online Digital Transaction

Be more cautious with public WiFi networks.

Use VPN.

Use OTP during transactions.

Identify **secure** web pages.

Use protected ATM machines

Use reputed applications for financial transactions

Use applications listed in National Payment System

Do not scan stranger QR code

Do not share OTP over phone or text

Do not click on bank links from email or text.

Do not share PIN over phone or text

Recommendations for personal security of women on internet:

1. Use a strong password
2. Deploy Multi Factor Authentication Methods
3. Use licensed and updated Antivirus on mobile as well as computers and laptops
4. Check websites for HTTPS
5. Change your home internet routers default password
6. Use a standard account instead of administrator to access your device.
7. Be cautious at all times while clicking on links
8. Be careful while downloading free apps and software
9. Don't store sensitive data on your PC
10. Maintain good backup of your important data.
11. Physically secure your personal devices.

SESSION 6 (DAY 2- Session 2)

Date: 20th Jan 2021

Time: 12:15 pm to 1:45 pm

Name of Resource Person: Mr. Sahil Gaikwad

Mr.Sahil Gaikwad opened the webinar session by providing the overview of Android hacking and prevention. Then he explained different hacking practices. In this webinar Mr.Sahil Gaikwad presented few topics of hacking. There are several popular applications that are used by developers to hack Android devices to make them faster, increase battery life, and customize screensavers, ringtones, alerts, and more. The list of hacks available to make improvements to an Android growing every day.

DR. SANKET

7.1.1

Tweaks or hacks can be either surface ones or the deep-system kind, depending on what the hack can do. Popular surface tweaks or hacks are:

I. **SpyNote5.0 (Remote Administrators Tool Android)**

It is capable of:

- Deleting call logs
- Opening web pages
- Dialing any number
- Recording calls
- SMS intercepting
- Uploading images and video
- Opening an application
- Performing denial-of-service attacks
- Changing the command and control server

II. **AhMyth (Remote Administrator Tool Android):**

AhMyth an open-source remote access tool AhMyth has many features you would expect to see in a RAT such as Geolocation monitoring, SMS modules, Contact Lists Viewer, File Manager, Camera Snapshots, Microphone recorder and much more. AhMyth is very easy to use due to its simple and effective GUI design. AhMyth is a multi-platform remote access tool it is available for Linux, Windows & Apple OS.

It is capable of:

- Geo location monitoring
- SMS modules
- Contact Lists Viewer
- File Manager
- Camera Snapshots
- Microphone recorder and much more.

Top 5 Antivirus used to Prevent

1. McAfee 2. Comodo Antivirus 3. Bit defender 4. Avast 5. Eset

Preliminary focal areas of cyber security: During his presentation he explained about Android Application Security which is debatable and contentious topic among the three messaging services like WhatsApp, Telegram and Signal. He further explained in detail about Windows Hacking & Prevention such as system hacking of different software-based on technological systems such as laptops, desktops, etc. System hacking is defined as the Compromise of computer systems and software to access the target computer and steal or

DR. SANKET

7.1.1

Misuse their sensitive information. Here the malicious hacker exploits the weaknesses in a computer system or network to gain unauthorized access to its data or take illegal advantage. A hacker can hack the computer system because the hacker knows the actual work of computer systems and software inside the system. For this, a hacker has information about the systems, networking, and knowledge of other areas related to computer science. Anyone who is using a computer and is connected to the internet is susceptible to malicious hackers' threats. These online villains generally use viruses, malware, Trojans, worms, phishing techniques, email spamming, social engineering, exploit operating system vulnerabilities, or port vulnerabilities to access any victim's system. Further he discussed about Advphish Advance Phishing. Phishing is a cybercrime in which a target or targets are contacted by email, telephone or text message by someone posing as a legitimate institution to lure individuals into providing sensitive data such as personally identifiable information, banking and credit card details, and passwords. The information is then used to access important accounts and can result in identity theft and financial loss. In Android and network security using android information related to LastPass Bounce App GlassWire Proton VPN Fing is shared. Also to deal with Advance level malware's Tomb: (unlimited sms and call bombing) and Seeker Tool (extracting exact location of the scammers) were discussed.

VALEDICTORY: Valedictory session was graced by Ms. Trupti Dhodmisse as Chief Guest. In her dialogue with participants, she mentioned importance of Cyber security and appealed to all participants to follow the guidelines given by speakers in day to day life. On behalf of participants, few participants shared the feedback of the webinar series knowledge sharing and conduct. Participants were thankful to NCW and SKNCOE for this wonderful initiative.

DETAILED SESSION WISE SUMMARY OF THE PROCEEDINGS OF THE WEBINAR

Summary- Session 1 :

Session started at 10:30 am , immediately after inauguration. Tejaswari Gautam ma'am , IIPS , Alwar district , Rajasthan, explained audience about the importance of awareness about cyber crimes and need of protecting ourselves from the same. She mentioned about statistics

DR. SANKET

7.1.1

of cyber crime and a rapid increase of the same during Covid- 19 pandemic. Because of her wide experience in Police department, she has witnessed many such cases. She explained audience about the care need to be taken while being active on social platforms and also effectively mentioned dos and don'ts while connected to internet. She briefly explained about the laws related to cyber crime in country. The main topics of her discussion were

1. Importance of Cyber Security for Youth/ Women
2. Types of Cyber Crimes
3. Cyber Risk world wide
4. Top Five Cyber Security Tips
5. DO's and DON'T's for Cyber Security
6. Laws Relating to Cybercrime in India, IT Act, IPC

Summary- Session 2 :

Session is started at 11:45 am and ended at 1:15 pm. Seema Madam discussed on cyber security with the help of presentation. She discussed about following points:

- 1 Have I been pawned or not
- 2 How to maintain security of facebook, youtube channel, gmail, etc.
- 3 Importance of login credentials like password.
- 4 How to see information about google, timeline – travelling path.
- 5 Every activity on google.
- 6 Need of cyber security.
- 7 How to secure is my password?
- 8 Live cyber threat map-demonstration
- 9 Whatsapp, Iplogger, Malwares information: viruses, worms, etc.
- 10 Symptoms of infections
- 11 Demo of Keylogger – spy
- 12 Confidentiality of data, How to achieve integrity, Always backup you data, Cryptography and encryption. Explanations with example. How to check and maintain integrity of the file. Applications of Hash function, Demonstration of protection from malware.
- 13 How to use our windows firewall, Windows 10 security, primary and hardening.
- 14 Security of wi-fi routers.

At the end of session, Q & A session is conducted for 10 minutes. Overall session was nice which gave information about cyber security, networking and cloud computing.

Summary -session 3:

Prof. Ashok Pattar opened the webinar by providing the overview of cyber security, need & concern of cyber security, threats & attacks, social networking cyber security. Then he explained different net ethics practices. In this webinar Prof Pattar presented few topics of cyber security.

He discussed about following Preliminary focal areas of cyber security.

7.1.1

1. Cyber-attacks:
2. Social Media Cyber Security:
3. Internet Safety Guide for Women:

Summary -session 4:

Session 4 was on cyber security against women, Cyber laws in India, Tips and Trick to protect against cybercrime and reporting of cybercrime by Mr. Arpit Doshi Managing Director of Cyber mate Forensics & Data Security Solutions Pvt. Ltd.

In this session, all this points about women safety were covered i.e. All must understand what exactly Cybercrime, how cyber-criminal use the technology to make it happen what all precautions one should take either students or parents and how national commission for women protect us against this cyber-crime. He explained about how criminals are using following tools for the purpose to harass the victim

- Social networks (Facebook, Twitter, My Space, etc.)
- Mobile phone texting
- Videos
- Picture messages
- Instant messages
- E-mails
- Blogs
- Phone calls

Summary- Session 5 :

The session was on Browser , Smartphone , E- Wallet and online Banking Security and ATM risks and Tips which was conducted by Mrs. Pradnya Popphalakar, Information Security Analyst and Lead Trainer at Intelligent Quotient System Pvt. Ltd., Pune. In this session, madam had thrown light on Browser, Email and mobile Security, phishing attacks and secure practices interactively along with participants. Madam started the session with how Cyber crime happens, Cyber Attacks Are Inevitable and various biggest data leaks of 2019 where one of them was that Quick Server of SBI was not password protected, it here were 422 million victims and the data hacked was SBI customers phone numbers, latest transactions, bank account numbers and current account balances etc.

Various biggest data leaks of 2019 in India discussed are-

- SBI Quick Server- Not Password protected.
- Indian Credit card numbers stolen
- Nuclear power plant and Space agency ISRO Hacked.
- Just data breach at Just Dial

DR. SANKU
Vadgaon(Bk.), Pune-41.

7.1.1

On this incidence her suggestion was to use isolated Email-Ids for banking sectors and mistakes done by human can not be patched so they should be identified and taken care off. Common mistakes done by human while using internet are

1. Replying to unknown emails without verifying the email sender.
2. After browsing web site or doing online transactions, History and Cookie's are not deleted.

So to avoid these human mistakes she elaborated some Secure Practices such as

- Keep your browser up to date.
- Install and Update Anti-Virus.
- Watch phishing always
- Use HTTPS always
- Read Privacy Policies
- Don't use public wi-fi and if using then use VPN.
- Don't store passwords in browsers
- Enable two steps authentication
- Regularly monitor bank account statements.

Anti-phishing detection

She also explained how phishing attack happens by giving real time example of Facebook web site and what are the preventions for the same.

1. Attacker sends email to the victim.
2. Victim clicks on the email and goes to phishing website.
3. Attacker collects victim's credentials.
4. Attacker uses victim's credentials to access a web site(Legitimate web site)

Anti-phishing Prevention :

For preventing phishing attacks madam suggested some paid or free automatic analysis tools with example to identify original and phishing link.

1. www.checkphish.ai
2. www.phishtank.com
3. www.virustotal.com
4. www.isitphishing.org
5. www.getphish.com

There are two ways of prevention of phishing attacks.

1. 2FA- Two factor authentication :

7.1.1

- Sometime we know – like username and password plus something we have – like OTP.
- It protects against phishing, social engineering and password brute force attacks.

2. Multifactor Authentication

Anti-phishing Summary:

1. Please enable 2FA on all accounts.
2. Always scan web site links using checkphish.ai
3. Check Spellings of Email-id, name and signature.
4. Always check for HTTPS-in address bar.
5. Always check web site address spellings.
6. Always check web site full address.
7. Trust but verify,

Email Security :

Firstly she explained the components of Email. Then to find out fake email she told that email header analysis is to be done selecting the option of original message for the received mail. If the return path is other than the original email address of the sender then it is a fake email message.

Browser and online banking security:

She explained about browsing threats and how to track these activities using demo.

Browsing threats are

- Adverts or Ads or Adware
- Pop-up windows
- Trackers-Activity or location
- Scripts – malicious codes

To track the browser threats activities following links are used.

1. clickclickclick.click
2. panopticlick.eff.org

Browser Security can be ensure using following links

- [unblockorigin](#) : protects our browser from pop-ups using this add-on for all browses.
- [Privacy badger](#) : it is a add-on or extension which is used to protect browsing activities from activity trackers.
- [HTTPS Everywhere](#) : Extension or Add- on available for fire fox and is available on chrome as well. It protects browsing transactions.

7.1.1

- DuckDuckGo Privacy Essentials: It is a search engine which blocks the trackers and featured with private search and site encryption.

Smartphone Security : Some of the smart phone threats are

1. Malicious Apps – Spyware and Ransomware – Spy your entire mobile data
2. Trackers – Location and activity – Tracks all activities on phone and location of phone.
3. Vulnerability-OS versions and mobile applications versions.

She had thrown light on various smartphone app threats for collection and tracking.

Some of them are : IP address, Geolocation, unique device ID, Device model, mobile carrier, key stroke patterns, linked accounts, GPS, messages and metadata.

UPI and online transaction -Security :

Google pay is third party app provided and not listed in RBI recognised national payment systems. Her suggestion was to use listed RBI recognised national payment systems. Some security tips also given by her as follows.

- Use only reputed apps :PayTM, Google Pay,PhonePe
- Do not scan strangers QR code.
- Do not share your MPIN, OTP, mobile number and PII over phone or text.
- Do not click on bank links from emails or texts.

Summary of Session 6

Mr. Sahil Galkwad opened the webinar by providing the overview of Android hacking and prevention. Then he explained different hacking practices. In this webinar Mr. Sahil Galkwad presented few topics of hacking. He mentioned about Popular surface tweaks or hacks like SpyNote5.0 (Remote Administrators Tool Android) and AhMyth (Remote Administrator Tool Android) He also discussed about Top 5 Antivirus used for protection such as

1. McAfee 2. Comodo Antivirus 3.Bitdefender4. Avast 5. Eset

During his presentation he explained about Preliminary focal areas of cyber security such as Android Application Security, Windows Hacking & Prevention, Adyphish Advance Phishing, Android and network security using android , Dealing with Advance level malware's

GIST OF DELIBERATIONS MADE / INFORMATION SHARED BY THE RESOURCE PERSONS

Session I: Speaker Tejaswani Gautam

Tejaswani Gautam ma'am , IPS , Alwar district , Rajasthan, spoke about statistics of cyber crime and a rapid increase of the same during Covid- 19 pandemic. She explained audience

7.1.1

about the importance of awareness about cyber crimes and need of protecting ourselves from the same. She briefly explained about the laws related to cyber crime in country.

Session 2: Seema Dixit

Ms. Seema Dixit discussed about different Malware and Protective Measures against malware, data needs to be secured and use of cryptography and encryption to secure the data.. She further explained about Desktop Security and Protecting Personal Devices while using internet especially for women.

Session 3: Ashok Pattar

Prof. Ashok Pattar mentioned the statistics of cyber crimes happening in India and discussed various traps where we fall prey while doing our day to day routine activities in digital world. This digital transformation making every personal activity public. Which causes increase in Cyber crimes. Gradually increasing cyber crimes in every aspect of life is making feel us very insecure, cyber crime is not gender specific but in most of the cases victims are women. He appealed audience to drop the syndrome "it cannot happen to me syndrome" and ensure your security in cyber world. He suggested many precautionary measures need to be followed at personal level.

Session 4: Arpit Doshi

Mr. Arpit Doshi shared different technologies used by hackers and discussed various case studies related to different Phishing / Nigerian Scams, Online Banking Frauds. He also mentioned about top 25 most common passwords according to splashData, Cyber bullying and sexting.

Session 5: Pradnya Pophalakar

Ms. Pradnya started her session with biggest data leaks case studies in 2019 like SBI quick, ISRO, Justdial. She mentioned about common mistakes done while using internet. She discussed various phishing platforms, anti-phishing detection, anti-phishing prevention, email and browser security along with some demonstrations.

Session 6: Sahil Gaikwad

Mr Sahil Gaikwad discussed about Android hacking and prevention in details, Android app security, Windows hacking and prevention. Black phish advanced phishing with interesting examples. He also guided audience about how to deal with scammers and cyber bullying.

SPECIFIC, ACTIONABLE AND TOPIC ORIENTED RECOMMENDATIONS BIFURCATED INTO ACTIONABLE AT LOCAL, PERSONAL LEVELS

1. Use of Antivirus is very important.
2. Always back up your data to protect from disasters.
3. Check your data or systems to protect from malwares frequently.
4. Always try to change your password frequently.

DR. SANKET
College of Engineering
Vadgaon(Bk.), Pune-41

7.1.1.

5. Do not expose their personal life on social media and should be aware about cyber-crime laws.
6. Never click on any suspicious link either in an email, SMS or WhatsApp.
7. If required copy the link and open it in another browser tab but not in the email itself.
8. Check for the phishing websites before entering your username and passwords.
9. Always check that the websites are using https and not just http.
10. Be careful while updating your personal status on Facebook and WhatsApp.
11. Never accept friend request from a stranger Don't share your personal information unless and until it is required; either on websites or phone calls; such as your DoB, Address, Gender, phone number, email-id
12. Always look for the website using https and not http.
13. Make sure you are not using same email-id to create your accounts on different websites for different reasons. Especially you should not use the email id which is associated with your bank account.
14. We must use different passwords for every account. Password should be complex; more than seven characters. It should be the combination of small letters, capital letters, numbers and characters on the keyboard.
15. You should disable the GPS when not required
16. Do not use public wi-fi to perform money transactions, to access social networking sites like Facebook. To access your email etc.
17. While using public network, after browsing or during online transactions cookies and history should be deleted.
18. Always do the online transactions on websites which is having valid security certificate.
19. While doing any online transactions, check whether that website is HTTPS or HTTP and use only HTTPS.
20. Use Safari or Brave browsers instead of Google Chrome and Mozilla Firefox to avoid browsing threats. Use New private window for Mozilla Firefox and New incognito window for Google Chrome to keep our browsing history safe.
21. Use DuckDuckGo.com search engine instead of Google search engine to avoid trackers and with private search and site encryption.
22. For smart phone securities, always keep Google play protect setting and security update up to date.
23. People should check their online accounts and reports regularly
24. People should know the information about what is phishing scams and how the phishing scam can hack the data.
25. Parents and family members shall give sufficient time to others in family to avoid distractions of social sites. They shall also ensure limited use of social networking sites, and happy and healthy sharing habits among family members.
26. We need to teach students about the discussed securities. We also need to help parents to understand this growing epidemic and inform them of what they can do to protect their devices.

DR. SANKE

Smt. Kashibai Navale
College of Engineering
Vadgaon (Bk.) Pune-41.

7.1.1

27. Use OTP during financial transactions, Use protected ATM machines, Use applications listed in National Payment System, Do not scan stranger QR code, Do not share OTP over phone or text, Do not click on bank links from email or text., Do not share PIN over phone or text

➤ SPECIFIC, ACTIONABLE AND TOPIC ORIENTED RECOMMENDATIONS
BIFURCATED INTO ACTIONABLE AT STATE, CENTRAL GOVT LEVELS

1. Government should monitor the social media activities, various untrusted websites, applications and software's.
2. Government should secure public wifi with VPN and people should not use public wifi without VPN so that their data will not be hacked.
3. Due to today's era of internet and smart/ digital world, awareness about cyber security must be included in the school's and university curriculums.
4. To reach to various levels of society, state /central govt. shall use various student bodies like NSS to spread the awareness among society.
5. Students can be motivated to avail various internship activities and Cyber Security awareness can be made compulsory at entry level in the industry.
6. Hoardings, banners at key locations especially in rural part of country can also be used to promote awareness.

File No. 13(1)/2020-21/NCW/PMR
National Commission for Women
New Delhi

Issues/Topics/Thrust Areas for organizing Webinars for the Financial Year 2020-21

The National Commission for Women has identified the Issues/Topics/Thrust Areas, listed below, for organizing Webinars for the F.Y. 2020-21.

1. NRI marriages

- I. Issues concerning NRI Marriages particularly harmonizing domestic laws with International private laws including how pre-nuptial agreements could help address issues in such marriages.

2. Women Mental Health

- I. Mental Health and Quality of Life of Married Working Women in India
- II. Workplace mental health and wellbeing.

3. Domestic Violence

- I. Implementation of Domestic Violence Act and effectiveness thereof
- II. Violence against Women: with special reference to Counselling

4. Cyber Crime

- I. Cyber Crime against Women: Precautions and Strategies
- II. Harassment of Women in Digital Space

5. Migrant Women Workers

- I. Migrant Women Workers: Issues and Challenges
- II. Women Migrant Workers and Labour Law: Identifying gaps and exploring remedial measures
- III. Challenges to implementation /analyzing grassroots impact of law and policy measures

2. State Women Commissions, Universities/Research Bodies/Institutions, reputed NGOs and academic institutions/bodies may upload their proposals for organizing Webinar on the above topics/issues through online mode at NCW website www.ncw.nic.in or <http://ncwapps.nic.in/eproposalv2>, latest by 12th June, 2020. The webinars may be conducted upto 31st December 2020.

3. Incomplete proposals or proposals received after the last date will not be entertained. The Commission reserves the right to select the organization based on their

Signature: 
Smt. Kanchan Navale
Officer in Charge
Vadgaon, Dist. Solapur

eligibility, capability, area of work, expertise, etc. No correspondence on reasons for non selection of the proposal will be entertained by the Commission. No proposal received by e-mail/hard copy or by any other mode will be entertained.

4. Organizations / Institutions are advised to go through the guidelines relating to webinars available on the website of the Commission and also attached as Annexure-A.

Cyber Crime - Cyber Crime against Women: Precautions and Strategies

Title of the Webinar / Seminar / Workshop / Conference

MAKING DEVI SAFE

Objective of the Memorandum

NOT APPLICABLE

Objective of the Webinar / Seminar / Workshop / Conference

The traditional Indian society places women in a very high regards, the Vedas glorified women as the mother, the creator, one who gives life and worshipped her as a "Devi". The women occupied a vital role and as such her subjugation and mistreatment were looked upon as damening to not only the woman but towards the whole society. However, in modern times women are viewed and portrayed as sex objects, she is treated inferior to men in various societal spheres and functions, this has created a huge gender bias between the men and women. Women especially young girls inexperienced in cyber world, who have been newly introduced to the internet and fail to understand the vices of internet, and hence are most susceptible to falling into the bait of cyber criminals & bullies. Cybercrimes and cyber bullying is of various types like cyber harassment, cyber stalking, Cyber pornography, Cyber defamation, Morphing, Email Spoofing. According to a recent study, more women are known to use the Internet to enrich their relationships compared to men. Young women, those 18-24, experience certain severe types of harassment at disproportionately high levels: 26% of these young women have been stalked online, and 25% were the target of online sexual harassment. The growing reach of the Internet and the rapid spread of information through mobile devices has presented new opportunities that could put some women at risk, so it's important to be mindful of the dangers.

The objectives of this webinar are

1. Elaborate review upon the recent increase in cybercrime on women and its various causes
2. Discuss upon the various types of cybercrimes that can be inflicted upon a women and how they adversely affect her.
3. Discuss several strategies to counter the ever increasing cybercrime against women in India
4. Discuss various laws that exist to protect women in such cases such as the Information Technology Act, Criminal Amendment Bill
5. Discuss the options available to the victims of cybercrime and the changes required in legal system to effectively curb the rising spate of cybercrimes.

Expected outcome of the Webinar /

The Outcomes of webinar titled ' Making Devi Safe ' are as follows.

Subject: Webinar on "Cyber Crime against Women: Precautions and Strategies"

Madam/Sir,

Please refer to the proposal submitted by you to the National Commission for Women for organising Webinar on the above mentioned subject. I am happy to inform you that the Commission has approved your proposal for conducting Webinar with a financial assistance restricted to Rs. 50,000 (Rupees Fifty Thousand only).

2. In order to enable the Commission to process the matter further, following documents/information are required to be made available to the Commission as per prescribed formats within 15 days of the issue of this letter which has also been emailed to you:

- I. Acceptance Letter
 - II. Undertaking in the prescribed format (Annexure-A)
 - III. Details for linking of PFMS with NCW in the prescribed format (Annexure-B)
 - IV. Bank Mandate Form in the prescribed format (Annexure-C)
3. The sanctioned amount shall be released in two instalments as under:
- I. 50% in advance after acceptance of the proposal along with requisite documents (as mentioned in Para No.2)
 - II. The balance 50% on receipt of the satisfactory webinar report in the prescribed format (as described in Para No.5) and on submission of the following documents:
 - A. Utilisation Certificate (As per GFR 12-A)
 - B. Item wise Expenditure Statement

C. Original Bills and Vouchers

4. It may be noted that the first instalment will be released only after receipt of the documents/information as mentioned in Para No.2. If no response is received within 15 days of the issue of this letter, the approval will be deemed to be cancelled.
5. It may be noted that the sanction may be released and amount released may be recovered any time in case, the grantee organisation fails to conduct the webinar within period of one month from the date proposed for conducting the webinar or fails to submit the satisfactory webinar report including the following details:
 - I. Detailed session wise summary of the proceedings of the webinar
 - II. Gist of deliberations made/information shared by the Resource Persons
 - III. Specific, actionable and topic oriented recommendations bifurcated into actionable at Local, State and Central Government levels
 - IV. Full recording of the Webinar
 - V. List of Participants with their names, addresses, contact number and email addresses
 - VI. List of Resource Persons along with their designation and contact details (At least 60% Resource Person as mentioned in the webinar proposal must participate in the webinar.)
6. The date of organising webinar must be intimated to the Commission at least 15 days prior to the date of webinar along with online invite link to enable the Commission to depute an officer/observer to ensure adherence with the stipulated guidelines and presence of the qualified resource persons. The webinar must be organised on or before 31st December, 2020.
7. It may also be noted that it may take at least one month to release the first instalment after receipt of the requisite information/documents from you.
8. Please quote the reference number of this letter in future correspondence and also ensure that the organisation is registered under PFMS and linked with NCW, otherwise payment cannot be made.

ABOUT FUNDING AGENCY NATIONAL COMMISSION FOR WOMEN

The National Commission for Women was set up as statutory body in January 1992 under the National Commission for Women Act, 1990 (Act No. 20 of 1990 of Govt. of India) to review the Constitutional and legal safeguards for women, recommend remedial legislative measures, facilitate redressal of grievances and advise the Government on all policy matters affecting women. It has been organizing workshops / consultations, constituted expert committees on economic empowerment of women, conducted workshops / seminars for gender awareness and took up publicity campaign against female foeticide, violence against women etc. in order to generate awareness in the society against these social evils.

ABOUT THE WEBINAR

The growing reach of the Internet and the rapid spread of information through mobile devices has presented new opportunities that could put some women at risk, so it's important to be mindful of the dangers. Women especially young girls inexperienced in cyber world, who have been newly introduced to the internet and fall to understand the vices of internet, and hence are most susceptible to falling into the bait of cyber criminals & bullies, Cyberstalking and cyber bullying is of various types like cyber harassment, cyber stalking, Cyber pornography, Cyber defamation, Morphing, Email Spoofing. Topic of the webinar is "Cyber Crime against Women: Precautions and Strategies". The overall objective of this webinar is to create awareness to protect herself against cybercrime.

THE SPECIFIC OBJECTIVES ARE:

1. Elaborate review upon the recent increase in cybercrime on women and its various causes.
2. Discuss upon the various types of cybercrimes that can be inflicted upon a woman and how they adversely affect her.
3. Discuss several strategies to counter the ever-increasing cybercrime against women in India.
4. Discuss various laws that exist to protect women in such cases such as the Information Technology Act, Criminal Amendment Bill.
5. Discuss the options available to the victims in cybercrime and the changes required in legal system to effectively curb the rising spirits of cyber criminals.

WHO CAN ATTEND?

Students of Various Schools and Colleges, Faculty of different institutions, Corporate employees, Housewives etc.

ABOUT STES

Sinhgad Technical Education Society (STES) was setup in August 1993, under the able and dynamic leadership of Prof. M. N. Navale with an objective of providing quality education in the field of Engineering, Dentistry, Management, Computer, Pharmacy, Architecture, Hotel Management and the basic school education from kindergarten onwards. There are 100+ institutes under the aegis of STES offering full-fledged school education, diploma, Graduation, Post-Graduation courses and Ph.D. programs in various branches of Engineering, Science and Management at seven educational campuses ideally located in pollution free lush green and picturesque environment conducive for learning.

ABOUT SKNCOE

STES's Smt. Kashibai Navale College of Engineering, Pune (SKNCOE) established in 2001, has become synonymous with quality engineering education. Presently SKNCOE offers courses in E&TC, Computer, IT & Mechanical Engineering. The courses are approved by All India Council of Technical Education (AICTE) affiliated to Savitribai Phule Pune University, Pune. Almost all above courses are accredited by National Board of Accreditation (NBA), New Delhi. SKNCOE is accredited by NAAC in Sept. 2016.

ABOUT DEPARTMENT

Department of Electronics and Telecommunication offers an undergraduate program. Department is accredited by NBA for 3 years in 2017-18. Liaison with prominent industries like Texas Instruments, Intel has enabled the department to keep pace with technology.

About Shivaji University, Kolhapur

Shivaji University, established in 1962, is named after the Great Maratha Warrior and founder of the Maratha empire Chhatrapati Shivaji. One of the major objectives behind foundation of this University was to cater to the regional needs of South Maharashtra. The jurisdiction of the University is spread over three districts viz. Kolhapur, Sangli and Satara with strength of about 3,00,000 students studying in 200 affiliated colleges and recognized institutes. The recent phase of the University can be termed as "a pursuit of academic excellence". Since last 4-5 years, several attempts are being made to overcome the image of University as a regional University. The University's efforts towards excellence are being recognized by the substantial grants received from funding agencies like UGC, DST, DBT etc. Another indicator of recognition of University is collaborations with premier institutes in the country. Shivaji University has recently signed MOU with Bhabha Atomic Research Centre, Mumbai for research in Material Science. It has also joined hands with Indian Institute of Geo-Magnetism, Mumbai and industries like Phyto-Pharma. Prestigious institutes like Maharashtra Police Academy, Nashik and Centre for Social Studies, Surat have sought affiliation with the Shivaji University. Shivaji University has been re-accredited by National Assessment and Accreditation Council (NAAC) Bangalore, with "A" Grade (CGPA-3.16) (2014). Shivaji University has bagged the 28th position in the rankings announced by the National Institutional Ranking Framework (NIRF) of Union Ministry of Human Resource Development (MHRD). As per the INFLIBNET report, Shivaji University stands second in use of Nature publications Group's (NPG) e-journal usage in the country. The University has also signed MoU with Centre for Development of Advanced Computing (C-DAC), Pune. Under the agreement, the two institutions will exchange information and communication technology.

About STES's Smt. Kashibai Navale College of Engineering, Vadgaon (Bk), Pune

The Sinhgad Group of Educational Institutes, spread over Maharashtra has presence to reckon with. The group is benchmarked in every aspect. It struck its foundation in 1993 to transform the dream of its visionary architect Founder President Prof. M. N. Navale into a palpable reality. The entire Sinhgad Group has convincingly evolved into the most sought after education destination. Majority of the institutes are duly accredited by NAAC, approved by AICTE and affiliated to Savitribai Phule Pune University. Every institute has an independent presence with enviable state-of-the-art infrastructure and all the facilities and resources, to label it an ideal place for learning. Invariably every campus has an impressive research centre and extensively stocked library. It comprises institutes in its fold, run by capable and qualified resource people, drawn from various disciplines. The entire Sinhgad Educational conglomerate continues in its search for excellence. Our Campuses are situated on a delightful hillock of the beautiful Sahyadri ranges, with the quietude form of the right ambience for learning, have clearly proven that such surroundings stimulate the brain and groom talent. The campus has independent spacious buildings for various institutions, along with all other resources & facilities. Sinhgad Technical Education Society's Smt. Kashibai Navale College of Engineering, Vadgaon(Bk), Pune was established in 2001 and has become synonymous with Quality Engineering Education. This bears a shining testimony to the magnitude of Prof. M. N. Navale's vision and relentless pursuit for excellence. This institute is approved by All India Council for Technical Education [AICTE], DTE and is affiliated to Savitribai Phule Pune University, Pune.

About Resource Centre in Cyber Security and Data Sciences:

National Resource Centre in Cyber Security and Data Sciences is established under the guidance RUSA Maharashtra from the grants received from the MHRD, Government of India under the 'Paudit Madan Mohan Malviya National Mission on Teachers and Teaching (PMMMNMTT)' scheme. Objective of this centre is capacity building of human resource which is recognized as a critical element to strengthen not only the organization/ institutions but even the people at grassroots level by spreading awareness Cyber security. There is a large gap between demand and availability

Principal
Smt. Kashibai Navale
College of Engineering
Vadgaon(Bk), Pune-41.

of trained human resource in Cyber Security, who can beneficially utilize the available information for cyber safety. Cyber security trained human resource is needed both as the provider and user of Technology. This is vital for sustainable development so that informed decision making can be done at all levels.

About the Training:

Cyber security is need of the time, as estimated by National Association of Software and Services Companies (NASSCOM)'s Cyber security Task Force, there is need of 1 million trained cyber security professionals in India by 2025. But, currently there are only 62,000, so to fill this gap there is need to introduce cyber security courses at graduate and postgraduate levels. Our aim is to train teachers with practical skills so that more and more cyber security experts can be shaped every year. It is expected that the 'Train the Trainers' approach shall percolate to the students in colleges and make them suitable to take up challenges in the domain of Cyber Security which is the need of this decade and will thus improve their employability enhancing campus placement. In addition, Cyber Security courses will help in start-ups and employment opportunities. The faculty shall be also trained specifically as knowledge creator with strong practical 'skills' and theoretical details.

Objectives of the Training:

- Train 2000 faculties
- Building networks of professional
- Forming consortium of industries specialized in cyber security which will interface with Shivaji University Kolhapur
- Sensitizing cyber security to masses at large for strengthening cashless transactions.

Eligibility:

Faculty Members from Science and Technology, Humanities, Social Sciences, Commerce and Management discipline from Universities, Colleges, NITs, IITs, Engineering Colleges and other Institutions of Higher Education. As the number of participants is limited to 40, preference will be given on First Come First Serve basis.

Programme Schedule:

Dates: 10th June to 16th June 2019

Venue: Smt. Kashibai Navale College of Engineering,

Dept. of Electronics & Telecommunication Engineering,

S.No.44/1, Vadgaon (Bk), off Sinhgad Road, Pune, Maharashtra 411041.

Day and Date	Course Contents
Day 1: Monday, 10/06/2019	Introduction and Computer Security- I
Day 2: Tuesday, 11/06/2019	Computer Security - I
Day 3: Wednesday, 12/06/2019	Network Security I
Day 4: Thursday, 13/06/2019	Network Security II and Email Security, I
Day 5: Friday, 14/06/2019	Website Security I
Day 6: Saturday, 15/06/2019	Website Security II and Cyber Law,
Day 7: Sunday, 16/06/2019	Mobile Security and Cloud Security

The eligible candidates will be given confirmation is available on web-portal and it will also be informed through email. All confirmed participants will have to submit a relieving letter from their institution on the first day of the training.

Laboratory Assignments:

1. Installing, Configuring and Commissioning of Proxy Server using FOSS. Studying issues like Browser security, email security, difference between http, https etc.
2. Perform port scanning using NMAP (Network Mapper).
3. Analyse the network traffic using Wireshark or any other network sniffer.
4. Collect the Owner's information using spyware.
5. Steganography: Perform data hiding using covered writing
6. Identification of virus infected file using virustotal.com
7. Understanding trace route functionality using open visual trace route
8. Vulnerability analysis in web application using Zed Attack Proxy
9. Isolating WLAN Traffic using Separate Firewall for VPN Connection
10. To Create a Virtual Private Network (VPN) over WAN
11. To evaluate application response time in the presence and absence of a firewall.
12. Managing Security in Small Business Network
13. Security Group Policies Management
14. Group Policy management
15. ICMP Ping
16. Subnetting
17. Firewalls
18. RIP
19. OSPF
20. VPN
21. VLAN
22. Case study on IT Act 2000
23. Case study on cyber attack / cyber crime

Registration:

Participants must register through online web-portal only. No need to send any printed documents to the Resource Center Shri Chhatrapati Shivaji Maharaj Vastu Sangrahalaya.

Registration Link: <http://sanganakshirajshri.com>

Registration details:

Registration of participants is free of cost. Hard copy of the registration form duly forwarded through the Head of the Institute should be submitted to the Co-coordinator on the first day of the programme.

Instructions for the Participants:

- Attendance at all sessions is mandatory. Breakfast, Lunch and Tea will be provided.
- Outstation participants will be provided accommodation only on advance intimation.

Technical Requirements from Participants:

- Participants should carry their own laptop as well as debit cards, credit cards, payment wallets, net banking, UPI, mobile banking, PayPal, Aadhar, PAN card with them for sample demos.
- Participants should carry Smartphone either Android / iOS with them.
- Participant should focus on smartphone apps like True caller, Pay TM, Phone Pe, Google Pay, PayZ App, Authenticator, Facebook, WhatsApp, Instagram

Important Note: This FDP under PMMMNMIT is applicable for CAS promotions as per UGC gazette.

MOCK PLACEMENT

ROUND 1 APTITUDE TEST 28 MAY 2021

The round was conducted for one hour in which a test paper was provided to the participants to complete the test. The test paper comprised of 60 question of 1 mark each.

ROUND 2 GROUP DISCUSSION ROUND

31 MAY 2021

The selected candidates from the first round were made in groups of 5. A topic was then provided to them by the judges and they were given 10 minutes to discuss on it. Marks were rewarded to them on several parameters.

ROUND 3 HR INTERVIEW ROUND 22 JUNE 2021-23 JUNE 2021

There were 6 finalist chosen from the previous round. Their personal HR Interview was taken by Guest HR Mrs. Madhavi Mohan. She took the interview of all the candidates and selected three winners.
