Bengaluru- 560 072

Subject: Proofs of Metric No. 7.1.3

Reference: Metric No. 7.1.3: Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 500 words)

Dear sir/Madam,

As per said subject kindly find below the index of File Descriptions/Documents for your valuable information.

Table with 4 columns: Sr.No., Facility, YES OR NO, and a checkmark column. Rows include Solid waste management, Liquid waste management, Biomedical waste management, E-waste management, Waste recycling system, Hazardous chemicals and radioactive waste management, and Food Donation Activity.

Thanking You,

Principal
(Dr. A. V. Deshpande)

Principal
Smt. Kashibai Navale
College of Engineering
Vadgaon(Bk.), Pune - 41.

Details of Supporting documents of Indexing is as follows:

Sr. No.	Description of Documents Available	Page No.
1	Solid Waste Management	4-33
2	Liquid waste management	34-51
3	E-waste management	52-53
4	Waste recycling system&Food Donation Activity	54-98

Thanking You,

Principal
(Dr. A. V. Deshpande)

Principal
Smt. Kashibai Navale

**DEFICIENCY OF WATER -
VADGAON-AMBEGAON CAMPUS**

Respected Sir,

1. It is hereby informed that, the Water Irrigation Department has planned to cease the water flow in Mutha Right Canal, entirely, with effect from 23.11.2018. Hence, it is not possible to lift the water from the canal.
2. It is also informed that, we had experienced agitation of 400 students for not getting water in the hostels during September 2018.
3. We also take a water connection of 4 inch from the PMC water line, but it is not sufficient to provide water to whole campuses.
4. It is therefore requested to kindly grant permission to take another water connection of 6 inch from the PMC waterline and oblige.
5. Forwarded for your approval and further direction please.

Dr. A. V. Deshpande
Director

7.1.3

Paper Recycling and Distribution

7.1.3

Our College conducts Mock exams for every university level exam and during these exams a lot of paper may be wasted due to incomplete answer sheets. At the end of every semester students do not use the remaining blank pages from notebooks which in turn go to waste.

To reduce this wastage we devised this activity wherein students drop these otherwise wasted pages into these collection boxes and then the Unit collects these pages to then them into well bound books which can then be distributed to the needy and are thus efficiently recycled, where instead they would have been wasted.

7.1.3

This activity was started from 16/02/2017 and since then thousands of pages have been received to be recycled. This activity is not a one off activity but will be carried out on a regular basis all year long so that paper can be saved in larger amounts.

This activity not only provides resources to the needy but also makes the load on the nature and waste disposal system a little lesser. Multiple boxes have been placed in colleges and hostels in our campus for easy access to all students.

7.1.3

29th September 2017

SKNCOE organised a cleanliness campaign at Ambegaon (Bk.), Pune. Volunteers of the NSS unit planned the campaign and actively participated. Volunteers started work at 7 am under the supervision of Prof. Sanjay Pingat (program officer NSS SKNCOE). Morning walkers also appreciated the activity by the NSS unit. In a span of three hours, students picked up wrappers, bottles, straws and dry/useless vegetation.

The cleanliness drive was made successful by NSS volunteers. volunteers cleaned all planned areas. Every day people in Ambegaon (bk) used to see lots of garbage spread on road and public places. NSS activity really made atmosphere of society clean and healthy.

Paper Recycling and Distribution

PRINCIPAL
Smt. Kashibai Navale
College of Engineering
Pune-44.

Our College conducts Mock exams for every university level exam and during these exams a lot of paper may be wasted due to incomplete answer sheets. At the end of every semester students do not use the remaining blank pages from notebooks which in turn go to waste.

To reduce this wastage we devised this activity wherein students drop these otherwise wasted pages into these collection boxes and then the Unit collects these pages to then them into well bound books which can then be distributed to the needy and are thus efficiently recycled, where instead they would have been wasted.

This activity was started from 16/02/2017 and since then thousands of pages have been received to be recycled. This activity is not a one off activity but will be carried out on a regular basis all year long so that paper can be saved in larger amounts.

This activity not only provides resources to the needy but also makes the load on the nature and waste disposal system a little lesser. Multiple boxes have been placed in colleges and hostels in our campus for easy access to all students.

Smt. Kashibai Navale College of Engineering
NSS REPORT
2015-2016
NSS OFFICER: PROF. S. P. PINGAT

Swacch Bharat Abhiyaan-10th August, 2016

Under the Swacch Bharat Abhiyaan, the entire campus of Smt. Kashibai Navale College of Engineering was cleaned by the NSS volunteers from our college under the guidance of the program officer Prof. S. P. Pingat.

CLEANLINESS DRIVE

The second activity which we decided to do was cleaning up the village and its outskirts. This was done in three parts. First we cleaned up the area where we needed to build the "Bandhara", and this was a big task as the location of the structure was near the village crematorium. This was disposed off near the bank where the local village garbage bin was located. Though cleaning this up was necessary for the building of our structure it also improved the potability of flowing water.

Secondly we decided to clean up the village streets which were paved and were frequently used by everyone in the community so that it would benefit everyone. We managed to collect 5 sacks of non disposable garbage and with the help of the local administrative body(Gram Panchayat) managed to dispose it off with the rest of the village garbage disposal system.

Third and the last place we decided to clean was the hiking track of the Fort of Sinhgad. This was a gargantuan task as was only possible to do while climbing down the fort as it is not sensible to carry a load uphill. Majority of the collected garbage was disposed off in the garbage cans along the route and the remaining was disposed off at the base of the fort in the garbage bins available there. This was done for the Beautification of the Historical Monument and its surroundings.
