Wear a mask or cloth to cover their mouth and nose. Maximum all are safe at home. They were instructed not to come outside of their homes.

Multimedia is said to be one of the most effective means of communicating your ideas and messages. The SITS Narhe NSS volunteers shot and edited 2 videos for spreading awareness about the benefits of social distancing, need to stay at home, use of digital means to do things, work and study from home and different activities that can be carried out by individuals by staying at home to notify, encourage and motivate the society. Through digital posters and awareness quiz, we could reach out to a larger audience with the help of all social media accounts of the college, faculty and volunteers and ensure that the messages passed by the government and authorities are passed across to everyone. Initiated by the central government, the Aarogya Setu App is an important feature to track the interaction of residents with potential COVID-19 positive patients. The volunteers themselves downloaded the app and also have helped people around to download the app.
