Dear Sir,

It is gratifying to greet you again to thank you for your active participation in our Mega Cleanliness Drive on 29<sup>th</sup> Sept., which helped a lot in achieving the goal of cleaning 2+ KM stretch of Sinhgad College Road plus parts of adjoining lanes and made the drive successful.

It was more appreciable to see the students in spite of their submission time. Surely these students stand a great example to the fellow students and residents of the locality and they will be the messenger of cleanliness and ultimately godliness.

We hope your continued participation and contribution in future as well.

Once again thanking you for your time and contribution towards good cause of making our surrounding clean-A step towards Clean Nation & environment betterment.

Students of Sinhgad College of Engineering in Pune built forest dams in remote areas of Khopewadi, Shenwad and Varoti Khurd behind Torana Fort in Velhe taluka through National Service Scheme. A group of students from Pune had come for this project at their own cost. A total of 100 students participated in this activity. The number of female students was also significant. The water stored in the stream due to these dams will help to increase the water supply of the wells in the area and also to make water available for the animals for the next 2 to 3 months. In forest type dams, empty sacks of cement are filled with sand or soil and the sacks are buried in two or four rows in the stream. The number of layers of cement sacks can be determined by considering the width of the streams and the potential water storage. Pune-based builders Sachin Dangat and Rawat provided the pot of cement required for the dam free of cost. Vilas Gandle from Varoti Khurd, Bapu Jorkar and Sunil Jorkar from Khopewadi and Bhuruk Guruji from Shenwad took the initiative. Ajit Deshpande and Anil Palkar of Dnyan Prabodhini helped in uniting the college youth in Pune.
