Date: 27/09/2020

On 27 September, 2020 from 3:00 pm to 4:00 pm NSS Team of SAOE In Collaboration with Bramhand Sansthan organized a webinar on "Supporting Orphanage Via Caring and Education". Webinar was conducted on Digital Platform, YouTube on Channel Awakening Reality. Aman Kumar Tiwari (President of Saeo NSS) contacted the Bramhand Sansthan for conducting webinar in collaboration with NSS team of Saeo.

The Speakers for the webinar were C.M Redkar Sir (Secretary Bramhand Sansthan, Pune. The Anchors for the webinar were Yogesh Joshi and Yashasvi paunikar. 500+ People attended the live Webinar. Among which few were Members of NSS and others were Non Members of NSS.

The Topics Discussed In Webinar Were –

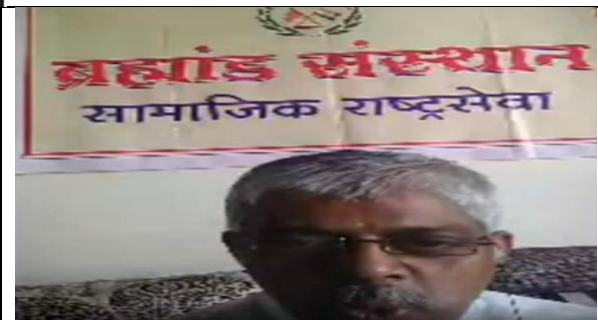

- 1) What steps can be taken to reduce the no. of orphans?
- 2) What we can do development about orphanages?
- 3) What development is lacking for orphanages?
- 4) What facilities are provided by government for orphanages?
- 5) What about the education of orphans?

A new study by an International Children's Charity's has found that 4 per cent (20 million) of India's child population are orphans. Most of these children have been abandoned by their parents. In fact, the charity estimates that only 0.3 per cent of these orphans are children whose parents have actually died. The high proportion of abandoned children among orphans highlights the fact that poverty is a major reason behind the situation. Indeed, the study found that states such as Uttar Pradesh, Bihar and West Bengal had more orphans than India's richer states. Generally, the country's central and eastern regions were found to be worse affected than the north and the south. Orphaned children are greatly in need of care in protection, being among the most susceptible to poverty, child labor and child trafficking.

The Objective of Bramhand Sansthan is to help orphan people and make them aware about education, social services and environment. Also motivate them by telling them stories about saints, freedom fighters etc.

After Webinar, All the Members present in the Webinar took a Collective Pledge to Donate Eyes.

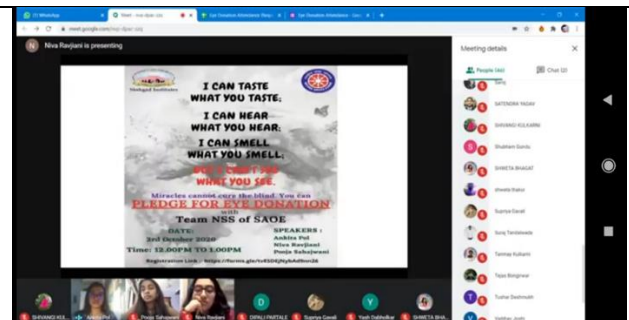

According to a WHO report published in 2010, globally, 285 million people suffer from visual challenges. Of these 285 million, 246 million suffer from low vision while the remaining 39 million suffers from blindness. Of the total number of visually impaired and blind people in the world, 65% and 82% respectively, are over 50 years of age. In South East Asia which includes India, over 48 thousand people per million suffer from visual impairment, while over 43 thousand per million suffer from low visibility and over only 6 thousand per million suffer from blindness.

Apart from a few reasons why certain conditions cannot be cured, most people suffer from curable ailments, especially those that can be cured with the help of donated eyes. In India nearly 2- 3 million people suffer from corneal blindness which could be cured through eye donation. Cornea is a clear tissue in our eyes, which allows light to pass through, enabling the brain in comprehending shapes and colours. A person is said to be suffering from corneal blindness when the cornea gets cloudy or obstructed in some other way. This reduces visibility. Now, this can be cured with the help of eye donation, which is an act of donating eye posthumously.

NATIONAL SERVICE SCHEME

REPORT ON “TREE SAPLINGS DISTRIBUTION”

PLACE: Savitribai Phule Pune University, Pune

DATE: 23rd June,2019

The Savitribai Phule Pune University (SPPU) Sunday on 23rd June attempted to create a Guinness World record by distributing 16,631 saplings of neem to volunteers of the National Service Scheme (NSS), linked to more than 350 colleges under the University. The saplings are likely to be planted along the route taken by warkaris during Ashadhi Wari .

With the record attempt, the SPPU announced the start of its ‘Green Wari’ initiative, which combines ecological awareness with the larger objective of promoting conservation of water resources and regenerating the tree cover.

Students wore four-colour T-shirts during the event and formed the National Flag.

Our Chief Minister Devendra Fadnavis, Guardian Minister Chandrakant Patil, Mayor Mukta Tilak, District Collector Naval Kishore Ram and SSPU Vice Chancellor Nitin Karmalkar, among others, were present at the event.

Fadnavis, who also administered an oath to participating NSS volunteers for ensuring a ‘Green Wari’ this year, said the pilgrimage has a tradition of more than 700 years and it should be a matter of privilege for students to be able to contribute towards making the journey of warkaris easier and more fulfilling.

VC Karmalkar said, “Attempting the world record is not a goal in itself. The goal is to make the wari more environmentally friendly.

All this will be monitored by a qualified group of practicing lawyers,” said Mr. Pande. “There will be a serving officer to monitor the whole process and he would be assisted by a reputed auditing firm at the

TSH is produced by the pituitary gland in your brain

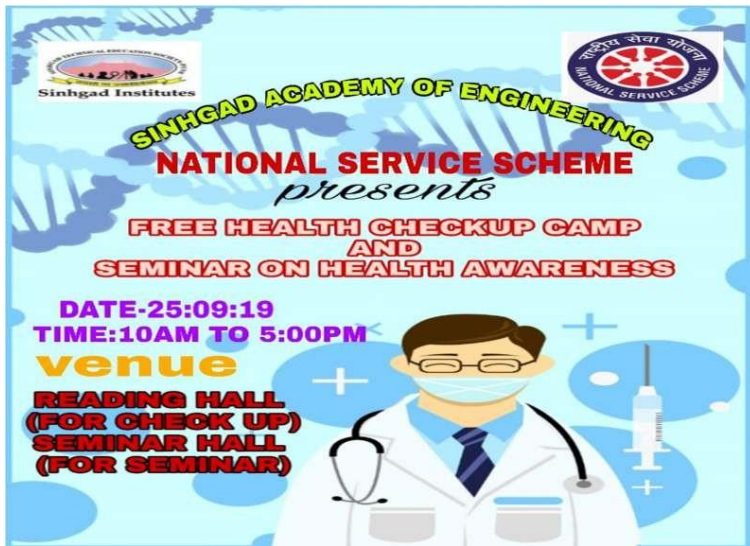

2. Bone Profile

The body needs **phosphorus** to build and repair **bones** and teeth, help nerves function, and make muscles contract..... The kidneys help control the amount of **phosphate** in the **blood**.

c. Alkaline Phosphorous : An **alkaline phosphatase (ALP) test** measures the amount of **ALP** in your blood. **ALP** is an enzyme found throughout the body, but it is mostly found in the liver, **bones**, kidneys, and digestive system..... High levels of **ALP** can indicate liver disease or **bone** disorders

Fort conservation event

Every community and society has a very precious heritage which has to be and can be transferred to the next generation. The monuments we can get a glimpse of India's past through these monuments. With their elaborate superfluities and wonderful architecture, Indian monuments represent one of the most outstanding facets of the Indian culture. But simply possessing them are not enough. Preserving them should be equally prioritised. It is disheartening to see people, forgetting that they are doing an irreparable damage to these archaeological masterpieces, throwing trash, inscribe their initials, names, or messages on these national treasures.

In order to further strengthen the commitment for protection of monuments, we members of NSS team decided to conduct a cleanliness drive at one most famous fort in Maharashtra the Rajgad fort located in pune district. At first two senior volunteers were hired to survey the place first just to ensure safety and check willing of other volunteers to trek. So after getting a green signal we finalised our destined to Rajgad fort. And the day was finalised on 12th of feb 2020 to go.

Finally the day arrived we departed at 5 am in morning from the front gate of our college. It was too early so breakfast poha and cup of tea was provided to all volunteers. Everyone was energised and excited. Then we seated in our bus and started our journey towards our great destiny. Around 6:30 we arrived at base of the Rajgad fort. With the thrill and radiant energy we were ready to climb the fort. We started from gunjavane (chor darwaza) to trek. It was a blissful morning we enjoyed while trekking. Sooner we reached at padmavati temple around at 8:30am there we halted to have some snacks and to quench our thirst for which we were carrying 4 water jars. We also carried a first aid kit to avoid medical emergency if in any case of injury to anyone.

When we touched to the fort soil had some different kind of energy which took away all our tiredness and we were ready to get started with our main purpose of arrival, the cleanliness

drive. We wore the gloves and began to collect the trash and plastic waste and cleaned surrounding premises heading towards the padmavati maachi (suvela maachi). The dirt and dust did not deter spirit of any volunteers and they took part in the cleanliness drive enthusiastically.

There were two reasons behind to conduct this drive one was, of course, to conserve the fort, and the second was to promote the initiative, 'Swachh Bharat'. We believe that Clean, Happy and Healthy Citizens impart Healthy and Developed Nation. Every volunteer were willingly participating in picking up paper and plastic and sweeping.

At the end of the activity, five big sacks of trash were collected that mainly included plastic bottles and cups, wrappers and polythene bags. Kudos to the entire team of NSS with zeal and enthusiasm the task was completed exemplarily

Then we gathered at temple again. From the pali path way we trek down. Finally reached at the base of the fort around 3:30 pm, without thinking anything we moved towards a small village hotel and eat authentic meal roti, kaju masala, thecha, papad, daal tadka, and rise. Our stomachs were indulged. Then at 5:00 pm we started our journey way back. While travelling back we halted at a place place for tea and refreshments. At 7:30 pm we reached back to the college. It was a unique experience for all of us. We were curious to be the part of this great drive.

A waste management event was organized on 27th September, 2018 by the NSS team of Sinhgad Academy of Engineering, Kondhwa. The main motive of the event was to spread awareness about the proper management of garbage. The event was carried out at the residential area of Yewalewadi, Pune. Efforts were taken to educate people about the segregation of garbage into "dry waste" and "wet waste". This event brought forth a platform to distribute dustbins marked "dry waste" and "wet waste" separately. Dustbins were distributed between residents, vegetable vendors and clinics without any cost. The event was a huge success as volunteers as well as the people on the receiving end gave a positive response to this initiative.

Visit to orphan school, Interaction and donation of grocery items

ORPHANAGE VISIT AND CHARITY

Students of NSS SAOE visited a city orphanage ‘Sumati Baalwan’, an orphanage in Katraj, Pune. The underprovided kids at the institution spent the evening learning skills like sketching, paper quilling and craft with us. The NSS unit bonded well with the kids over the 2 hours. We entertained them with motivational and funny stories and played games with them. We heard stories, poems from the children and watched them perform their hidden talents. They were then treated with a small refreshment of snacks and cold drinks. At the end, we donated a sumptuous amount of grains and clothes for the children. It was a sensitizing experience for the entire team of NSS present there.

VOTERS AWARENESS ACTIVITY

On the occasion of Pune Municipal Corporation Election, NSS (National Service Scheme) unit of SAOE, Kondhwa organized a ‘Voters Awareness Drive’ activity with the great enthusiasm. We went door to door and we talked to the people about importance of voting. We came to know that most of the people were having a voter’s ID but their ward of voting was at some other place and in some cases even the cities were also different. So we told them to get the address changed and provided them with the detailed explanation of the procedure to be followed to get it done. Total no. of participated volunteers was 30 and we even went in the shops and gave information to shopkeepers. Our main aim to do the activity was to increase the participation of maximum people for giving their valuable vote. It will not only increase % voting but gives good balanced government and that will definitely enhance the governance in the city.

TREE PLANTATION PROGRAM

Trees are the most essential and beautiful part of our environment. They contribute to the environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. Also, the oxygen we need for breathing is provided by trees. Trees are necessary for green environment, which is again essential for ecological balance and plentiful water resources. To make the nature more beautiful and better, the NSS (National Service Scheme) unit of 'Sinhgad Academy of Engineering', Kondhwa, conducted a *"TREE PLANTATION PROGRAM"*. The program was successfully conducted at Kondhwa Hospital. All the NSS students along with the hospital staff participated in the program and planted different plants in the hospital campus. Total 12 plants were planted. The work is not finished here. We also made sure that the plants will be watered regularly and proper care will be taken to turn these plants into trees.

Tree Plantation Report July 2016

Date: 14/07/2016

No. of students participated:35

No. of Teachers Participated: 03

Location: Surrounding area of Sinhgad Academy Of Engineering, Kondhwa,Pune

Background:

Maharashtra State Government declared the first week of July 2016 as a VAN MAHOTSAV 2016. Under this event State Government promoted many institutions to plant as many trees in their surrounding area. So to celebrate VAN MAHOTSAV 2016 our institute selected area surrounding Sinhgad Academy Of Engineering for treeplantation.

Objective:

Trees play an important role in reducing the air pollution and to maintain the good quality air level in an environment. Trees are also useful to reduce the erosion of soil which may lead to high flood situation. So every individual shall try to plant as many trees as possible. Because day by day pollution level in an environment is becoming worse. Hence to overcome this situation tree plantation is the only solution we have.

Objective behind selecting Sinhgad Academy Of Engineering:

As surrounding area of Sinhgad Academy Of Engineering is overcrowded by vehicles of all types. So it may lead to increase in air pollution level of the said area. This area is also surrounded by several educational institutions including Trinity college campus. So tree plantation in this area will help to maintain good air quality in coming days.

Outline of Activity:

The objective of this activity to plant as many trees in available area which are beneficial to environment. Principal Dr.Vijay Wadhai sir has provided all necessary support to complete this activity successfully.

No. of trees planted: 20

- 1) Ashok: 7 nos
- 2) Neem: 8 nos
- 3) Peltafarm: 3
- 4) Pimapl: 2

Outcome of Activity:

1. Students understood importance of tree plantation and types of trees which are beneficial to maintain clean environment.
2. Students realized impact of air pollution on society.
