Subject: Request for granting permission - regarding

Dear Sir,

We, a scientific team, approach you with a purpose to grant us a requisite permission to carry out part of our ongoing geophysical work within open land belonging to Gliding Center, Civil Aviation Department. Our academic and research project is aimed to focus on **"Detection of groundwater in hard rock areas"**. Towards this, a geophysical survey is being planned to carry out involving vertical electrical sounding (VES) and measurement of Earth's magnetic field strength using Proton Precession Magnetometer (PPM) as well as traditional water dowsing methods. Our main aim is to validate the cost-effective water dowsing method of groundwater detection using modern geophysical methods such that the kind of research has societal implications.

Towards this, we selected your open land-site as one of 22 predetermined points within Pune city. Generally, we select sites which are free from all cultural noises like power lines, underground pipe lines, Ac cables, fences, vehicular traffic etc., and hence this is reason for our selection of this suitable site falling in our 22 points survey grid.

Dr. N.P. Dharmadhikari Associate Professor (Physics) of Sinhgad Academy of Engineering, Kondhwa, Pune - 48, who is leading the survey team, is an overall in-charge for this project work. Hence he has been entrusted to meet you, and explain about our research findings, and significance of scientific activities. We oblige.

Thanking you,

Yours' truly,

Dear Sir,

Dr. N.P. Dharmadhikari from your Institute has visited today, i.e. 21 August 2019 to discuss and finalize ground magnetic survey sites of Pune and Mumbai coastal regions. These selected sites will be investigated using Proton Precession Magnetometer (PPM) with ~1 nT to 0.1 nT accuracy. Also we identified future research problems that to be jointly worked out.
