INTRODUCTION

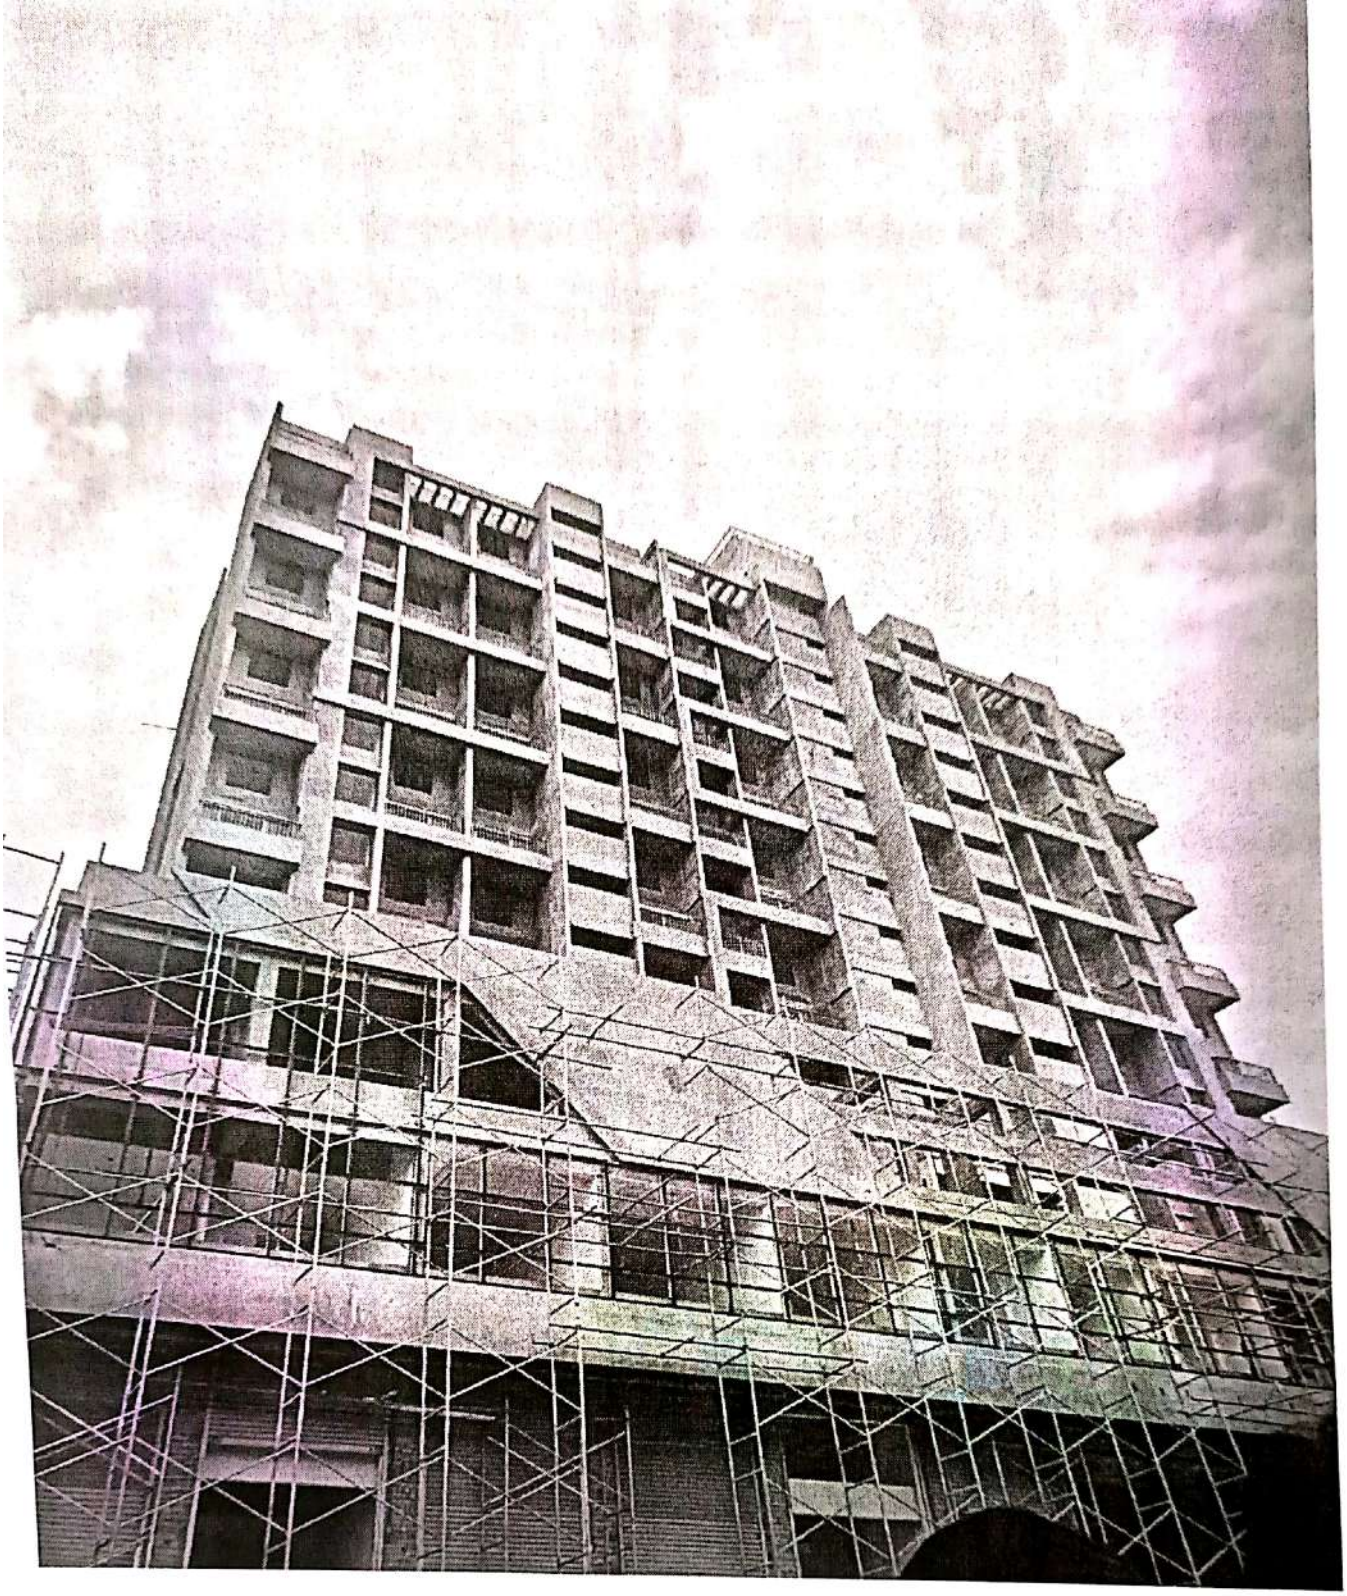

The site visit to Building Technology Study Namely **KASTURI BUILDING, near Sinhgad Academy of Engineering, Kondhwa, Pune** was organised by civil department, SAE, on 12th Dec 2022. The agenda of visit was to know about the building technology.

In this visit students got the practical knowledge going to the place was much fruitful since students keenly noted all the all the point which were delivered by faculty. The purpose of site visit is to provide the students with sound knowledge on Technology of Building and the materials used during construction. Countless valuable information was shared among both the parties regarding visit, especially on the operation of the project, the fast construction techniques can be good basics for the student in order of attaining perspective of the building in real life situation. Furthermore, this site visit can assist the students on knowledge for the preparation of their future career.

➤ Materials Used

Image1):-Sand

1)Sand is granular material composed of finely divided mineral particles.

2) Sand has various compositions but is defined by its grain size. Sand grains are smaller than gravel and coarser than slit.

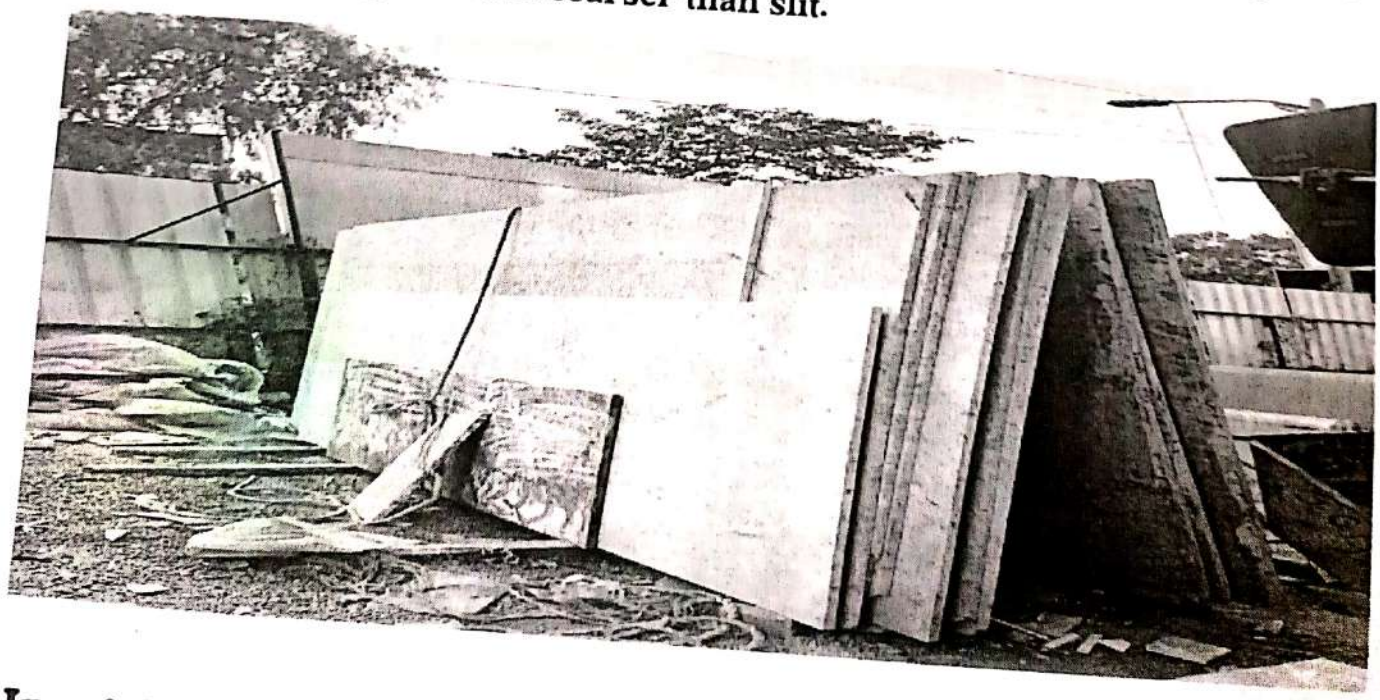

Image2):-Marbles and Granite

Scanned with OKEN Scanner

1)Most of all. both marble and granite make beautiful countertops. backsplashes. wall coverings. and more.

2)They are both unique stones and can represent a very significant investment.

Image 3):-A Diesel generator -based concrete mixture machine on a construction site.

1)Automatic self weighing mixer is used in site. The capacity of mixer is about 1.8 cubic meters.

2) Initially crush sand. aggregate and cement were dry mix into drum and then water is added a per the mix design.

3)The gauging time is about 2 to 3 minutes. A report of each batch is made in the form of receipt and it is submitted to the concern authority.

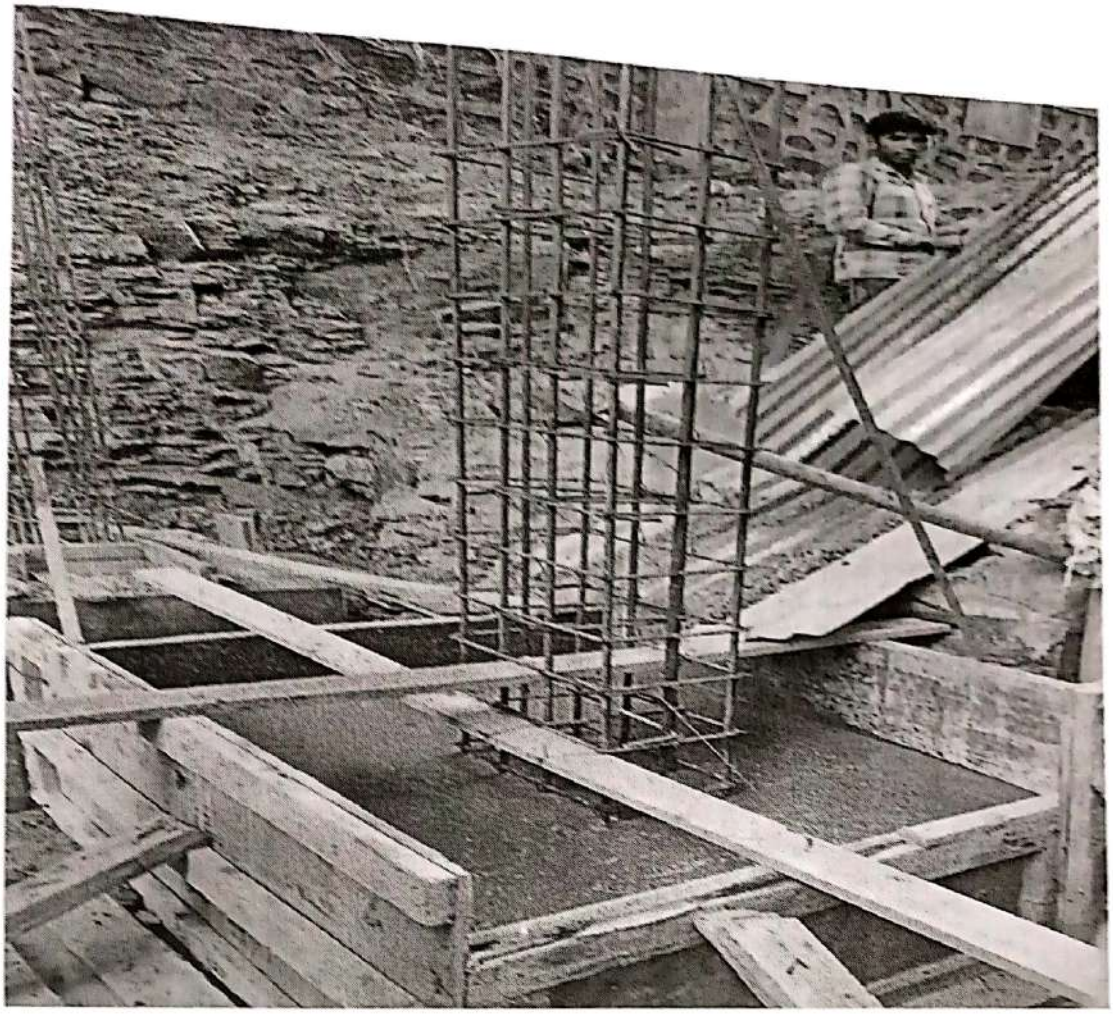

Image5):- Reinforced Cement Bars

1) The most common reinforcement used is steel. Due to its complimentary properties and it is called reinforced cement concrete.

2) Steel bars embedded in concrete are called as 'reinforcing bars or reinforcement'.

3) TMT bars are commonly used for its superior tensile strength. TMT bars has a tensile strength of 64000psi.

Image6):- Cellular Lightweight concrete

1)CLC is preferable for thermal insulation as bricks and clocks instead of flat roofs and non-loading walls.

2)The low strength material is used for old sewer pipes, wells, unused cellars and basements.

Laced Columns -

Lacing consists of **connecting the components of the column by a system of generally flat plates**. (In some cases angles and channels are also used as lacings). Lacing plates may be 50 mm to 75 mm wide and 8 mm to 10 mm thick.

General requirements for lacing column (IS 800)

(i) Compression members comprising two main components laced and tied, should where practicable have a radius of gyration about the axis perpendicular to the plane of lacing not less than the radius of gyration about the axis parallel to the plane of lacing.

(ii) As far as possible the lacing system shall be uniform throughout the length of the column.

Scanned with OKEN Scanner

ngle laced systems on opposite faces of the components being laced ther shall preferably be in the same direction so that one is the adow of the other instead of being mutually opposed in direction.

ction using bolt - Bolted Connection is **a type of structural t. They are used to join steel structures**. Any steel structure is an ssemblage of different members such as beams, columns and tension members, etc. These different components must be connected properly using fasteners to act together as a single composite unit

Cleat angle

This means that the angle cleat **restrains both lateral and torsional movements of the member**. Since the angle cleat connects both elements (purlin and main beam) in the web, the proposed restraint has the added advantage of preventing the main beam and purlin's web from crippling at loading points.

King post truss –

A king post (or king-post or kingpost) is **a central vertical post used in architectural or bridge designs, working in tension to support a beam below from a truss apex above** (whereas a crown post, though visually similar, supports items above from the beam below).

Re: Internship Acceptance letter

Dear Malhar Sanjay Badame,

We are pleased to offer you Mr. Malhar Sanjay Badame, Student of CSE Department, Sinhgad Academy Of Engineering, Kondhwa , for an internship in Web Development with our Company Teachnook collaborated with Wissenaire (IIT Bhubaneswar).
This is an Internship and Training Program. Our goal is for you to learn more about the domain, to get real industrial knowledge & experience.

As we discussed, your internship is expected to last for 2 months from April,2023 to May,2023.

[However, at the sole discretion of the Company, the duration of the internship may be extended or shortened with or without advance notice. During the Internship no leaves will be provided.]

As an intern, you will not be a Company employee. Therefore, you will not receive a salary, wages, or other compensation. In addition, you will not be eligible for any benefits that the Company offers its employees, including, but not limited to, health benefits, holiday pay, vacation pay, sick leave, retirement benefits. You understand that participation in the internship program is not an offer of employment, and successful completion of the internship does not entitle you to employment with the Company.

During your internship, you may have access to confidential, proprietary, and/or trade secret information belonging to the Company. You agree that you will keep all this information strictly.

Confidential and refrain from using it for your own purposes or from disclosing it to anyone outside the Company. In addition, you agree that, upon conclusion of the internship, you will immediately return to the Company all its property, equipment, and documents, including electronically stored information.

Teachnook

By accepting this offer, you agree that you will follow all of the Company's policies that apply to non-employee interns, including the Company's anti-harassment policy.

This letter constitutes the complete understanding between you and the Company regarding your internship and supersedes all prior discussions or agreements. This letter may only be modified by a written agreement signed by both of us.

I hope that your internship with the Company will be successful and rewarding. Please indicate your acceptance of this offer by signing below and returning it to our company desk.

If you have any questions, please do not hesitate to contact us.

Very truly yours,
Saumya Tiwari
Senior HR Manager

INTERNSHIP COMPLETION LETTER

Dear Murtaza Dhariwala,

We are pleased to inform you that you have successfully completed your internship with our organization as a web development intern starting from 25th January to 8th March. We would like to take this opportunity to congratulate you on your achievement and express our appreciation for the dedication and hard work you have demonstrated throughout your internship.

During your internship, you have shown a strong commitment to your work and a willingness to learn and grow in the field of web development. You have worked on a number of projects, both independently and as part of a team, and have consistently delivered high-quality work that has met or exceeded our expectations.

Your contributions have been instrumental in the successful completion of several web development projects, including website design, development, testing, and maintenance. Your technical skills and attention to detail have been particularly impressive.

We are confident that the skills and experience you have gained during your internship will serve you well as you move forward in your career. We wish you all the best as you continue to pursue your goals and would like to offer our support and guidance as you navigate your next steps.

Once again, congratulations on completing your internship, and thank you for your hard work and dedication. We look forward to staying in touch and seeing where your career takes you.

SHARDUL POTDAR
SINHGAD ACADEMY OF ENGINEERING

Dear Shardul Potdar,
Welcome to CodeClause!

Congratulations! We are delighted to make you an offer as an intern as **Python Development Intern**

Here are the terms and conditions of our offer:

Your scheduled date of internship with us will be from **1-Feb-2023** . If you accept this offer, you will begin your internship with the Company. As an intern, you will receive "temporary employment" status. As a temporary employee, you will not receive any of the employee benefits that regular Company employees receive.

By accepting this offer, you agree that throughout your internship, you will observe all policies and practices governing the conduct of our business and employees, including our policies prohibiting discrimination and harassment. This letter sets forth the complete offer we are extending to you and supersedes and replaces any prior inconsistent statements or discussions. It may be changed only by a subsequent written agreement.

This letter constitutes the complete understanding between you and the Company regarding your internship and supersedes all prior discussions or agreements. This letter may only be modified by a written agreement signed by both of us. I hope that your internship with the Company will be successful and rewarding.

Thank You

Offer Letter

Ayesha Shaikh
Pune, India.

Dear Ayesha Shaikh,

We are pleased to offer you the position of Artificial Intelligence Intern with a 7 weeks training program at **Rinex Technology**. We believe that your skills and experiences make you a strong candidate for this opportunity, and we are excited to support your professional growth and development.

The internship and training program will begin on **January 10, 2023**. During this time, you will work 45 hours per week, gaining hands-on experience in Artificial Intelligence and working on real-world projects.

Please note that this internship is unpaid and does not come with any compensation. However, we believe that the training and experience you will receive during this program will be invaluable to your future career goals.

Please sign and return the enclosed Internship Agreement, along with any required forms, by January 8, 2023. We will also require that you complete a background check.

We are confident that this internship and training program will provide you with a valuable and rewarding experience, and we look forward to welcoming you to our team. If you have any questions or concerns, please don't hesitate to reach out.

Sincerely,
For Rinex Technology,

Academic Director

INTERNSHIP ACCEPTANCE LETTER

Date: 30.11.2022

Dear Pravin Ghevarchand Suthar,

I welcome you to Mitt Arv Technologies Pvt Ltd. We are excited to have you onboard as an Intern in our company. We are working on a unique concept and it is great to have you right at the formation of our organization and see you grow along with us.

During the duration of your internship with us (Mitt Arv Technologies Pvt Ltd. - referred to as 'Company' or 'Mitt Arv' interchangeably going forward), you shall be governed by the following terms and conditions of service and those as may be amended from time to time.

- You are being offered a **Software Engineering Intern** position and **Mr. Ash J** would be your Reporting Manager and Mentor during the Internship. As an Intern, you would be responsible for a variety of aspects related to Technology.
- Your date of joining is **1st of December 2022** for a duration of 6 months. Post-completion of 6 months, you may continue the internship for a longer duration based on your preference and the Company considering you a right fit for the role. You will be in a training period for a minimum of 1 and maximum of 2 months. The actual duration of your training period would depend on your performance and commitment shown. We expect you to fully ramp up by the time your training period is complete. During your internship, you are expected to devote your internship specific time and efforts solely to the company work. You are also required to let your manager know about any forthcoming planned absence from work (if there is any) in advance so that your work can be planned accordingly. The conditions of this letter would be extendable, unless explicitly specified in an amended document, in case duration of your internship is extended further.
- You will be working remotely for the duration of the Internship. There will be regular catchups scheduled with your manager and / or rest of the team at regular intervals. You might also be called (optional) for an in-person team bonding offsite during the duration of the internship.
- All the work that you will produce at or in relation to the company will be the Intellectual Property of the company.
- You are not allowed to store, copy, sell, share, and distribute it to a third party under any circumstances during or after your internship.
- We take data privacy and security very seriously and maintaining the confidentiality of any intern, employees, customers, clients and companies' data and contact details that you may get access to during your internship will be your responsibility.
- Mitt Arv operates on the zero-trust principle with regard to any breach of data security guidelines. At the completion of the internship, you are expected to hand over all the company work/data stored on your Personal computer to your manager and delete the same from your machine.
- Each invention will belong exclusively to the Company or its subsidiaries, Company's parent company or any subsidiaries of the parent company (herein referred together as the 'Company'). Company shall have the derivative rights of the work or services provided by you, or within the scope of your duties, or an outcome of the duties as a part of the team. For the creation of such invention, you will be entitled to future royalties up to 50% of net profit earned by the Company from any third party by the sale or commercial use of such invention, not exceeding your annual base salary. In case, you cease to be an intern or employee of the Company, you shall not be entitled to any such royalty, however, your name shall be associated with such invention, provided you

have not been terminated from your internship or employment due to a breach of any of the provisions mentioned in this letter or on the grounds of indiscipline.

- Under normal circumstances, either the company or you may terminate this association by providing a notice of 15 days without assigning any reason. However, the company may terminate this agreement forthwith in case there is a misrepresentation of facts stated during the interview rounds or in a situation of disciplinary behaviours like an event of breach of the conditions.
- You should expect constant and continuous objective feedback from your manager and other team members and we encourage you to ask for and provide feedback at every possible opportunity. It's your right to receive and give feedback.
- Please note that a Stipend of Rupees 5,000/- will be paid every month within the first 5 working days of each month during your training period. Once your training period is complete, your Stipend will be revised to Rupees 12,000/- per month and you shall also receive a performance-based bonus of up to 25% of your stipend on a quarterly basis. The stipend would be on a pro rata basis if your joining is in the middle of the month and paid together with the first full calendar month of the internship. During the course of the internship, the stipend may further be revised based on mutual agreement and explicitly mentioned in an amended document to this letter.

We look forward to onboarding you from the joining date and wish you all the very best in your learning journey at Mitt Arv.

Subject: Internship Offer

Dear Akash,

With reference to the request from your college for carrying out internship training as part of your curriculum studies for the year 2022-2023. We are pleased to offer you an internship position with PTC Software (India) Pvt. Ltd. at our Pune development centre. You will be designated as "Intern".

If you accept this offer, your internship shall be subject to the following terms and conditions:

1. Your internship will begin on **July 18, 2022**. and will end on **June 30, 2023**. and you will report to the designated manager.
2. You will receive a stipend of **Rs. 22,000** /- per month.
3. Taxes, as applicable, will be deducted every month from your stipend.
4. This internship is considered temporary and the Company may discontinue internship training at any time forany reason not prohibited by law. Furthermore, grant of internship does not guarantee continuous employment, nor entitle you to employment with the Company.
5. As an Intern, you will not receive any of the employee benefits that regular full time Company employees are entitled to, including, but not limited to, health insurance, provident fund, privilege leave, superannuation program , or gratuity.
6. You will be entitled to 10 days paid leave during your internship.
7. Interns who require leaves for appearing in their college or university examinations would be granted a maximum of twelve (12) daysleaves per calendar year. Prior approval of your Manager and PTC 's Human Resource department is required for availing such leaves. For any leaves availed, in excess of aforementioned leave quota, Company will deduct proportionate amount either from the monthly stipend or from the full and final settlement, payable to the Intern, as deemed fit by the Company.
8. You shall comply with all applicable laws during the term of your internship with Company. In addition, you shall also comply with foreign laws in relation to anti-bribery and anti-corrupt, including but not limited to the Foreign Corrupt Practices Act of the US and the UK Bribery Act. You are also to abide by PTC 's Code of Conduct, which may be updated from time to time.
9. You acknowledge and agree that the intellectual property as well as any portion thereof you have developed shall be the sole property of Company from date of creation thereof. You agree that the exclusive ownership of all content and/or part of intellectual property that is not protected under copyright laws and /or other intellectual property law and/or that is not patentable shall be automatically and irrevocably transferred to Company from date of creation. You hereby waive all moral rights in relation to the intellectual property .
10. Confidentiality - You agree to keep secret and not disclose to parties outside Company any confidential or proprietary information with respect to Company’s business of which you have become aware, whether or not , developed by you, except as required in your duties to the Company, nor will you make use of such information for your personal benefit or for the benefit of others in any way detrimental to the Company.

11. By way of illustration, but not limitation, proprietary information includes any information, not generally known , which Company has expressly or implicitly protected from use by unauthorized persons or from unrestricted disclosure, such as, but not limited to trade secrets, inventions, discoveries, product designs, software documentation, technical product descriptions, methods,processes, data, marketing plans, forecasts, unpublished financial statements, budgets, licenses, prices, costs, sales quotas and employee, customer and supplier lists , as well as any evaluations, assessments, unique skills, knowledge or experience, or any other information related to employees, customers, or suppliers. You are required to maintain confidential all Company's proprietary or business information you come across and documents that you are required to handle in course of your work .In addition, you must return all Company-owned property, equipment, and documents, including electronic mail or other informationon or before conclusion of your internship with the Company. Only after Company has taken over from you the above documents, your account of dues will be settled by the Company.

12. You hereby indemnify and always keep indemnified Company against all damages or losses that may arise due to your willful breach of terms and conditions stated herein.

13. You will follow all working norms and rules of PTC Software (India) Pvt. Ltd.

14. Termination:

a. Termination by either party: Either party may terminate the terms of this internship upon written notice to the other party. The termination would be effective after fifteen (15) days from the date of the receipt (by the other party) of such notice (hereinafter referred to as the 'Notice Period').

b. Termination by Company due to your misconduct: Notwithstanding anything mentioned in the terms of this internship, Company may terminate your internship, with immediate effect by a notice in writing (without stipend in lieu of notice), in the event of (i) due to your fraudulent, dishonest or undisciplined conduct, (ii) your breach of the integrity, or embezzlement, or misappropriation or misuse or causing damage to the Company's property, (iii) insubordination or failure to comply with the directions given to you by persons so authorized, (iv) your conviction for any offence involving moral turpitude, (iv) breach of any terms of this internship or the Company's policies or other documents or directions of the Company, (v) you going on or abetting a strike in contravention of any law for the time being in force, (vi) misconduct as provided under the labour laws / acts or company policies.

c. Internship Completion/Experience certificate shall be issued to interns upon their successful completion of the entire internship period (stated in point 1) No exception will be made to this point

15. This internship offer and the terms of your internship shall be governed by and construed in accordance with the laws of India in relation to any legal action or proceedings. The parties irrevocably submit to the exclusive jurisdiction of any competent courts situated at Pune, India and waive any objection to such proceedings on grounds of venue or on grounds that the proceedings have been brought in an inconvenient forum.

Sincerely,

Report on Industrial Visit

To understand the integration and application of Mechatronics

Aim: Visit to Mechatronics Industry:

Pune Zillha Sahakari Dudh Utapadak Sangh, Katraj Diary, Pune.

Date: 5th November 2022

Venue: Milk Dairy, Katraj, Pune

Time: 11:00am to 1:00 pm

Session: Morning

Description:

STES's Sinhgad Academy of Engineering, Kondhwa, Pune under the guidance of Mr. J. N. Kajale, Assistant Professor, Mechanical Engineering Department, organized an Industrial Visit to Milk Dairy, Katraj, Pune on 5th November 2022, for the engineering students.

The aim of the industrial visit was to acquaint the students with the process of the Dairy Industry. 09 students of Third Year Mechanical Engineering along with 1 teacher visited the industry. The Visit commenced at 11am under the guidance ofMr. Akash Walunj, an employee of Katraj Dairy. The Visit began with a video about Katraj Dairy. The video included an introduction of Katraj Dairy, procurement of milk, transportation of milk, testing of milk, processing and pasteurization of milk and other dairy products etc.

Mr. Walunj showed the students how the milk processing machines like boilers, chillers etc work as a part to recognize the integration of mechatronics. He also showed the students all the production departments like Flavored Milk, Ice cream, Ghee processing, etc as a part to know the application of mechatronics. The visit concluded at 1pm along with an ice cream treat from Katraj Dairy.

विषय:- पर्वती जलकेंद्र प्रकल्पास भेट देणाऱ्या व्यक्तिंसाठी, संस्थेसाठीच्या नियमावलीस मान्यता मिळणेबाबत . .

महोदय,

वरील विषयान्वये पर्वती जलकेंद्र येथे विविध शैक्षणिक, सामाजिक, सांस्कृतिक व इतर संस्थामार्फत वर्षभर अभ्यास सहलींचे नियोजन करण्यात येते. सदर भेट देण्याऱ्या व्यक्ति व संस्थेसाठी सुरक्षेच्या दृष्टीने खालीलप्रमाणे काही नियम असणे आवश्यक वाटते.

१) इयत्ता पाचवीपर्यंतच्या विद्यार्थ्यांना पर्वती जलकेंद्र येथे भेटसाठी परवानगी देण्यात येऊ नये.
२) संपूर्ण सहली दरम्यान सहलार्थींच्या सुरक्षेची जबाबदारी संबंधित संस्थेची राहील.
३) शैक्षणिक सहलींसाठी मेनूल देण्यात आलेल्या मंगळवार, बुधवार व गुरुवार व्यतिरिक्त भेटींसाठी वेळ देण्यात येऊ नये.
४) भेटीसाठी प्रत्यक्ष जलकेंद्रामध्ये सोडण्याची वेळ ही सकाळी ९.०० ते १०.०० इतपत असणे आवश्यक आहे.
५) जलकेंद्रातील गर्दी टाळण्याच्या दृष्टीने कोणत्याही कारणास्तव एका वेळेस वाहनांपेक्षा जादा व्यक्तिंना/ विद्यार्थ्यांना प्रवेश देण्यात येऊ नये
६) एकाच दिवशी एकापेक्षा जास्त सहलींना परवानगी देण्यात येऊ नये.
७) सुरक्षेच्या कारणास्तव याव्याच्या अवश्य विशेषत: वलीरिकावरचर सहलार्थींना नेण्यात मज्जाव करण्यात यावा.
८) प्रत्येक सहलीसाठी प्रत्येक २० मुलांमागे आवश्यक शिक्षक अथवा सहकारीवर्ग असणे बंधनकारक असावे.
९) पर्वती जलकेंद्र आवारामध्ये कोणत्याही सहलार्थीने एकटे फिरण्यास मज्जाव करण्यात यावा, तसेच तसे आढळल्यास तात्काळ संबंधित सहलार्थींना जलकेंद्राबाहेर काढण्यात यावे तसेच संबंधित शैक्षणिक सहलही पुर्णपणे बांधण्यिात यावी.
१०) पर्वती जलकेंद्र आवारामध्ये मोबाईलसह कोणत्याही इलेक्ट्रानिक वस्तुंसोबत प्रवेश करण्यास सहलार्थींना मज्जाव करण्यात यावा.
११) कोणत्याही कारणास्तव दिलेल्या वेळेचे पालन करण्यास असमर्थ ठरलेल्या सहलार्थींना भेट नाकारण्यात यावी.
१२) संबंधित संस्थेने सहलार्थींची यादी तयार करुन गेटवर तावर करण्यासाठी नियोजित वेळेच्या आधिच उपस्थित राहण्याची खबरदारी घ्यावी.
१३) वरील सर्व बाबींचे पालन करण्याची जबाबदारी ही संबंधित संस्थेवर असून त्यामध्ये निष्काळजीपणा अथवा दुर्लक्ष झाल्याचे आढळल्यास संबंधितांची भेट तात्काळ रद्द करुन पुनश्च भेट देण्यास कायमस्वरुपी मज्जाव करण्यात यावा.

INDUSTRIAL VISIT REPORT

Academic Subject	**Engineering Materials and Metallurgy [202044]**
Company Name	Thermo Touch India Pvt. Ltd.
Company Address	S. No. 33/1A/21, Ambegaon Khurd, Jambhulwadi Road, Katraj, Pune, Maharashtra Pin-411046
Contact Person	Ms.Aditi Pendharkar Marathe. Director at Thermo Touch India Pvt. Ltd.
Email address	thermotouch@gmail.com
Phone	07722014897
Visiting Class	Second /Third Year and BE Project Students of Mechanical Engineering
Time and Date	10.30AM to 2.00 PM, 08/02/2023
Coordinating Faculty:	Mr. Y. K. Dhage

AIM:- To provide awareness and understanding of the course

COURSE OBJECTIVES :-

1. To impart fundamental knowledge of material science and engineering.
2. To establish significance of structure property relationship.
3. To explain various characterization techniques.
4. To indicate the importance of heat treatment on structure and properties of materials.
5. To explain the material selection process.

COMPANY INTRODUCTION

Established in 1969, by Mr. Bhalchandra Pendharkar, Thermo Touch, a proprietary concern, started providing quality services and timely delivery to our valued customers in and around Pune with its first processing facility at 507, Shankar Sheth Road, Pune-411037.

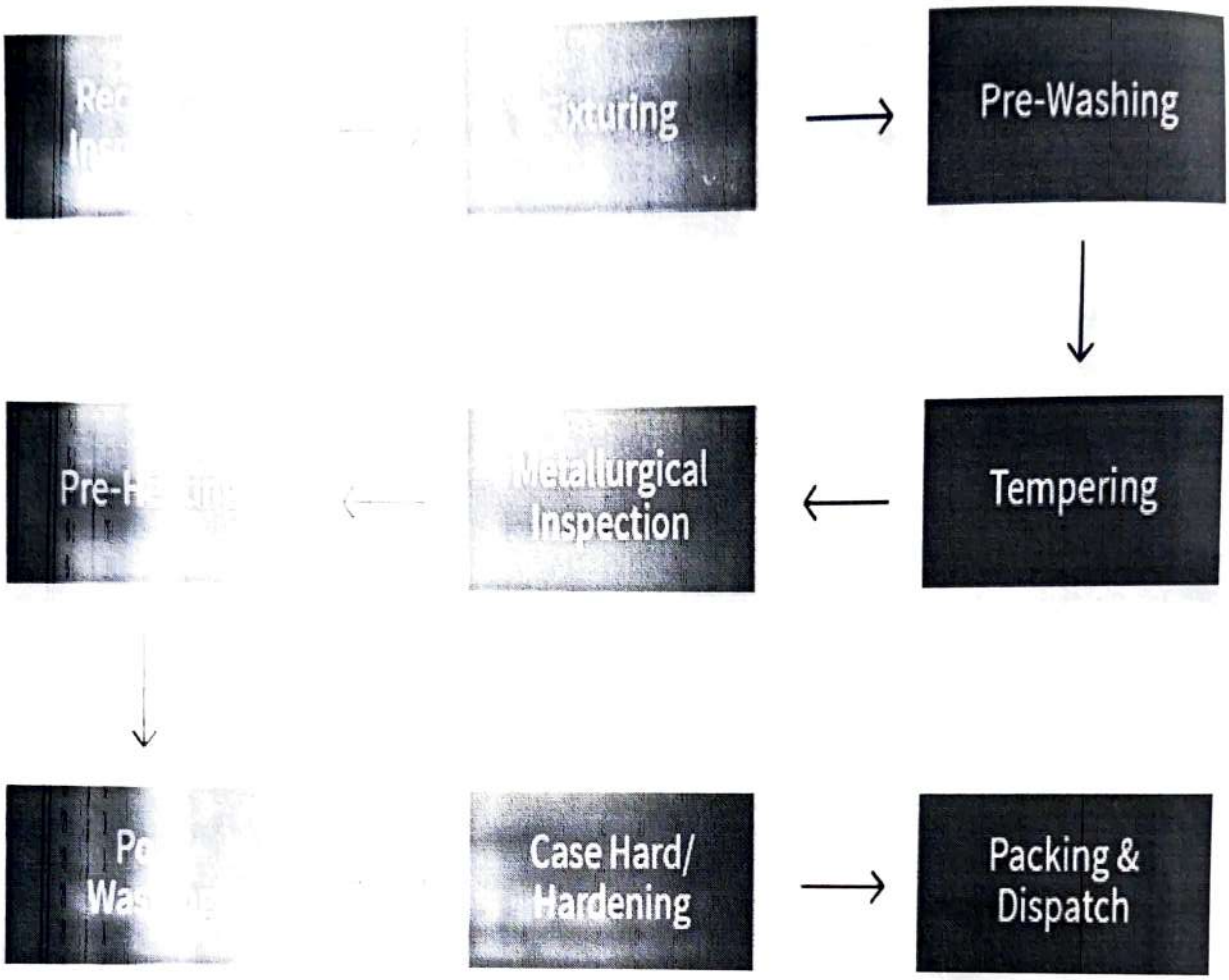

The company started its second processing unit at Ambegaon Khurd, Pune-411046, by putting up two no's of gas based Sealed Quench Furnaces for various processes such as Carburising, Carbonitriding, Hardening, Tempering & Normalising. In the year 2006, the company augmented its servicing facility by putting up an Ipsen make electrically heated Gas Sealed Quench Furnace system, increasing the accuracy of parameters & aesthetic look.

In the mean time Aditi Pendharkar-Marathe joined her father's business activities. In keeping pace with the business environment in India, once the proprietorship concern was transformed itself into a private limited form namely "Thermo Touch India Pvt. Ltd."

The company expanded the Heat-Treatment capacity by providing two more Sealed Quench Furnaces especially for gas-based Carburising, Carbonitriding, Through Hardening and Normalising in the year 2006 under the name "THERMO TOUCH" at Jambhulwadi Road, Katraj, Pune.

Additional Heat-Treatment facility was introduced in the year 2015 having one IPSEN Make Sealed Quenched Furnaces and full IPSEN heat treatment facility of 600/450 KG per batch under the name "THERMO TOUCH" at Ambegaon Khurd, Pune.

To facilitate all the services under one umbrella "Thermo Touch" and "Thermo Touch Services" have been merged together as **"Thermo Touch India Pvt. Ltd."** from 1st Jan 2019.

VARIOUS HEAT TREATMENT PROCESSES THOROUGHLY EXPLAINED AS UNDER

Carburising Hardening & Tempering(CHT)

It is the Chemical Thermal process in which enrichment of a surface depth of low carbon steels with Carbon then hardened (quenched) and tempered. It leads to the development of a combination of High Surface Hardness with good wear resistance as well as High Toughness and Impact strength due to core. This process is used for many engineering parts like Heavy Duty Gears, Cam, Shafts, Ball Bearing, Bushing, rock drilling bits etc.

Carbonitriding Hardening & Tempering(CNHT)

It is the Chemical Thermal process in which enrichment of a surface depth of low carbon steels with Carbon and Nitrogen then hardened (quenched) and tempered. It leads to the development of a combination of Very High Surface Hardness with good wear resistance as well as High Toughness and Impact strength due to core. This process is used for many engineering parts like Gears, Ball Bearing, Bushing, Sheet metal parts.

Through Hardening

It is the chemical process in which Heating the steel to proper austenitising temperature and soaking at this temperature then quenched in water, polymer, salt or oil. It develops good Hardness, develop High yield strength with good toughness and ductility.

Normalising, Quenching & Tempering(NQT)

Normalizing process is heat treatment process which is takes place at temperature 820 – 950 °C and then followed by cooling up to Room temperature, After that this material again do Hardening. In Normalizing process material become softer as well as uniform distribution of core structure of ferrite and Pearlite. After Hardening Tempering Parts structure changes with Martensite. Which gives good Hardness, Strength, toughness.

Only Carburising

Only Carburizing is heat treatment process that only carbon penetration takes place but quenching is not take place. Parts cool in air inside furnace. Which is do for removal of material from non carburising area (like threaded portion).

Nitriding

It is the Chemical Thermal process in which enrichment of a surface depth of carbon steels with Nitrides at temperature 500 – 575 °C. It develops very high hardness with very good wear resistance, to improve fatigue properties, to improve corrosion resistance, case has high resistance to tempering.

Nitrocarburising

It is the Chemical Thermal process in which enrichment of a surface depth of carbon steels with Carbon and Nitrides at temperature 500 – 575 °C. It develops very high hardness with very good wear resistance, to improve fatigue properties, to improve corrosion resistance, case has high resistance to tempering.

Annealing & Solution Annealing

Annealing is a heat treatment that alters the physical and sometimes chemical properties of a material to increase its ductility and reduce its hardness, making it more workable.Solution annealing is a high temperature heat treat process where the alloying elements of the material are brought into a solid solution. The solid solution condition is maintained by quenching the material in water or polymer.

Martensitic Stainless-Steel Hardening

Martensitic stainless steels are normally hardened by heating in the austenitizing range of 925 to 1080°C and then cooled in air or oil. It develop good hardness, Corrosion Resistance and strength.

Austempering

It is the Chemical Thermal process in which Heat steel above austenite temperature and austenite transforms isothermally to lower bainite. It reduces the distortion and cracks in high carbon steel. Austempered steel are superior than Hardening Tempered Steel. And it improves ductility at the same hardness.

Marquenching

Marquenching is an interrupted quenching process employed to minimise the risk of cracking and distortion of the quenched parts. The internal stresses developed due to volume growth in the core are minimised by Marquenching. This helps to prevent cracking and minimise distortion.

Stress relieving

Stress relieving is a technique to remove or reduce the internal stresses created in a metal. These stresses may be caused in a number of ways, ranging from cold working to non-uniform cooling. Stress relieving is usually accomplished by heating a metal below the lower critical temperature and then cooling uniformly. Stress relieving is commonly used on items like air tanks, boilers and other pressure vessels, to remove all stresses created during the welding process.

Dear Sir/ Madam,

We are extremely thankful for giving permission and your valuable time to visit your organization. This visit was very fruitful to the students of SE , TE and BE project from the knowledge point of view as they were exposed to real time application in the field of Metallurgy.

We wish to have this useful industry-institute interaction in future too.

Thank You.

Dear Sir/Mam,

As a part of curriculum, our Second year Mechanical Engineering students are required to visit a reputed Katraj Dairy related to Kinematics of Machinery subject awareness.

We are therefore requesting you to permit visit of our students on 29th April 2023.

Strength of students is 05 along with 01 staff member.

Kindly permit the visit of our students for their career benefits.

Title: **Report on Industrial Visit**

Name of Industry: **Katraj Dairy**

Pune-Satara road, Katraj, Pune

Mechanical Engineering department of Sinhgad Academy of Engineering, Kondhwa, Pune has arranged an industrial visit for SE (Mechanical) students to provide the practical exposure to Katraj dairy on 29th April 2023.

About Katraj Dairy

Katraj Dairy was incorporated in 1960 with an intension of providing an organized facility of milk collection for the village level farmers situated in Pune district. Katraj Dairy started with milk collection of about 0.30 lakh (30,000) liters per day in the first year of operation and today, has steadily grown to over 1.50 lakh liters per day and has a financial turnover of over Rs.150 crores.

Katraj Dairy has achieved ISO 9001:2000 & HACCP Certification from DNV in Oct. 2006 & maintained. In Oct. 2009 Dairy has achieved ISO 9001:2008 & HACCP 2006 Dutch Standard from DetNorskeyVeritus.

Katraj Dairy with its eight chilling plants and 12 BMC spread almost all over the district has an installed milk handling capacity of over 5 lakh (0.50 million) liters per day. The main plant of Katraj is equipped with modern Pasteurizer, homogenizer, Cream separator, Ghee processing, automatic packing of milk and milk products and other quality testing devices and well equipped labs. Katraj Dairy has an installed processing capacity of 2 lakh (0.2 million) liters per day.

Katraj dairy manufactures / Distributes milk and milk product like Pasteurized/ Homogenized-Cow milk,Tonned milk, Double tonnedmilk,Standardized Milk, Full cream milk,Cow&Buffello Cream and Ghee, Shrikhand, Amrakhand, MalaiPaneer, Dahi, Flavoured Milk, Lassi, JeeraTak, Table Butter, Milk Powder, Softy Ice cream, pedha , Khoa and in the near future plans to introduce sterilized milk in 200ml bottle and hard icecream with different flavours in different pack sizes..

Today Katraj is a symbol of high-quality milk products old at reasonable prices, the genesis of a vast co-operative network triumph of indigenous technology, the marketing savvy of a farmers' organization.

About Visit

The Visit commenced at 10.30 am under the guidance of Mr. AkashWalunj, an employee of Katraj Dairy. The Visit began with a video about Katraj Dairy. The video included an introduction of Katraj Dairy, procurement of milk, transportation of milk, testing of milk, processing and pasteurization of milk and other dairy products etc. Mr. Walunj shown the students how the packaging process of milk is carried out using Automation process. He also shown the automatic bottle/cup filling plant in katraj dairy where net quantity of Ice cream, milk, curd etc. are automatically filled in a bottle/cup using automation process.

The Visit concluded at 12.00 pm. The visit was organized by Prof. Prashant S Rade.

Programmable Automation

Programmable automation utilizes an assortment of CNC (Computer Numerical Controlled) machine tools, industrial robotic applications and programmable logic controllers (PLC) that work in real time. Operational efficiency is accomplished through the application of logical programming commands with automation technologies that power equipment and machinery. As an automated process, programmable automation:

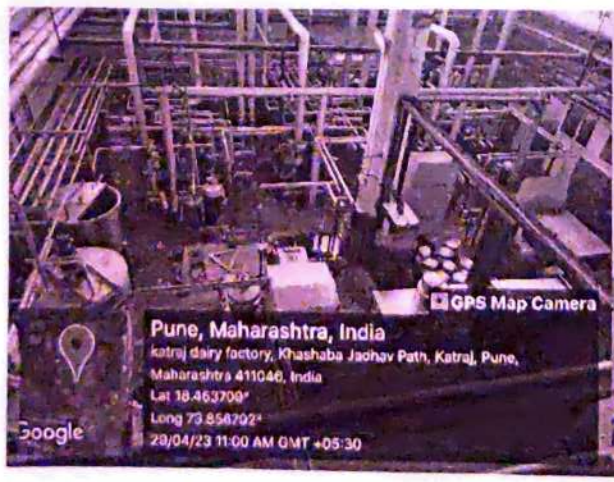

- Dramatically increases production and output
- Lowers associated costs
- Improves the work environment for employees by not only intellectually engaging them in production
- Removes humans from performing repetitive or hazardous tasks
