## REPORT: CSR Visit to Mamta Foundation

### Program Details:

Day: Tuesday

Date: 03 January 2023

Time: 11am - 01pm

Venue: Mamta Foundation

### Event Objective(s):

1. To cultivate a spirit of social responsibility amongst the students.
2. To provide platform for students to learn the way NGOs work for the benefit of society.
3. To apprise students about rising health concerns especially HIV/ AIDS.

### Event Brief:

Sinhgad Institute of Business Administration and Research Pune conducted a CSR visit for MBA first and second year students. Mamta foundation is a top player in the category NGOS in the Pune established by Mrs Shilpa Budukh. This foundation provides shelter to HIV Children in the age group of 4 years to 20 years.

Students had a discussion with the residents & asked about their routine. To help them with academics and career opportunities students took the initiative and exchanged the numbers to be in touch with them. Then snacks & stationery was distributed to Mamta Children. After breaking the ice, residents of Mamta foundation showed the handicrafts to our students and to encourage their skills students bought those items. This visit helped to raise awareness about the disease and forms of combating it to avoid social stigma and reduce anxiety among individuals in society.

**Event Brief:**

**Activities**

- 1) Breast Cancer Awareness speech & Checkup
- 2) Cervical Cancer Awareness Speech & Checkup

According to the National Breast Cancer Foundation, when breast cancer is detected early and hasn't spread to anywhere else in the body, the 5-year relative survival rate is 99 percent. "That's why being proactive about your health through early detection is so important," says Dr

What can you say about breast cancer awareness? Awareness surrounding breast cancer is incredibly important as early detection, often through screening, can catch the disease when it is most treatable. According to the American Cancer Society (ACS), breast cancer is the most common cancer in American women, except for skin cancers. Cancer awareness is the key to early detection and better health-seeking behaviour. Cancer is quite common in both developing as well as developed countries, but awareness is yet poor among the general population. Poor awareness may lead to poor uptake of screening modalities and delay in diagnosis.
