**Report**

Best out-of-waste simply means to make something innovative and attractive out of the material that is of no use otherwise.

Recycling and reusing the valuable waste material can result in development of fantastic and usable products. Rather than putting these waste materials into the landfills, various innovative and creative ideas can be put together to being something new and useful.

The main objective of conducting this activity is to celebrate "**Creativity and Innovation Day**" and motivate students for creativity. In order to make students aware of the uses of waste material and to give them a lesson on reducing waste to save our future '**Best from Waste**' activity was organised at **SKN Sinhgad School of Business Management**, for the students of MBA. It explored and encouraged creativity in students and offered them a platform to showcase their skill. It also inspired students to think and work creatively and promote artistic excellence.
