**Brief Report:**

Financial modeling is the process of creating a summary of a company's expenses and earnings in the form of a spreadsheet that can be used to calculate the impact of a future event or decision. Financial modeling is one of the most highly valued, but thinly understood, skills in financial analysis. The objective of financial modeling is to combine accounting, finance, and business metrics to create a forecast of a company's future results. A financial model is simply a spreadsheet which is usually built in Microsoft Excel, that forecasts a business's financial performance into the future. The forecast is typically based on the company's historical performance and assumptions about the future, and requires preparing an income statement, balance sheet, cash flow statement, and supporting schedules (known as a three-statement model). From there, more advanced types of models can be built such as discounted cash flow analysis (DCF model), leveraged buyout (LBO), mergers and acquisitions (M&A), and sensitivity analysis.

## Entrepreneurial style

# YOU ARE A MAKER

Makers bring ideas to life through tangible plans. A maker sees the big picture and the smallest details, simplifies complex problems – their strength lies in execution. Simply put, they're great at getting things done. Makers prefer processes and systems over people, and apply their organizational skills across fields.

CORE DESIRE	CORE FEAR	CORE PRIORITY
SOLVE PROBLEMS EFFICIENTLY	LOSING CONTROL	PROCESS
<b>STRENGTHS</b> <ul style="list-style-type: none"> <li>• Very disciplined and organized</li> <li>• Goal-oriented</li> <li>• Master Planner</li> </ul> <p>You are very good at planning and operational work; coming up with structures, processes, and systems to get things done as efficiently as possible.</p>		<b>WEAKNESSES</b> <ul style="list-style-type: none"> <li>• Does not like to give up control</li> <li>• Can be dominating or aggressive</li> <li>• Low emotional quotient</li> </ul> <p>You are naturally focused on process and tasks - you will need to connect with people and be open to new ideas to be an effective leader and entrepreneur.</p>

# Do you know them?

# Entrepreneurial style

## YOU ARE A MASTER

Experts in their own right, Masters are highly skilled and knowledgeable individuals with great passion for their chosen field. They adhere to high quality standards and expect the same of others. An expert is often looked up to as a role model, thought leader, or influencer in their industry.

**CORE DESIRE**  
BE AN EXPERT

**CORE FEAR**  
BEING AVERAGE

**CORE PRIORITY**  
KNOWLEDGE

### STRENGTHS

• Highly skilled and knowledgeable  
• High standards for excellence  
• Good at seeking out and mastering things better than others  
• Your experience makes you very valuable. You are a perfectionist.

### WEAKNESSES

- Can be inflexible
- Can become myopic

While you are great at building on your domain expertise, you face the risk of losing sight of the larger picture. Be open to others' opinions and what's beyond your area of expertise.
