They also discussed how despite having 29 States in India and 22 diverse languages in India, the vision of a United India put forth by Sardarji is still burning in our mind and hearts. A discussion also happened on the government's vision on the "Made in India" scheme and how it has impacted the nation's outreach in the International Market and its effect on the country's GDP growth.

On 31<sup>st</sup> October 2018, the winners of both the events were felicitated at the hands of the Dr. Rajashree Shinde, the Director of SKNSSBM.

**Actual Implementation:**

The event was spanned over two days.

On 25<sup>th</sup> October 2018, the college organized activities like National Unity Quiz Competition and Group Discussion. The event began with the welcome speech on Sardar Patel and his impact on India. The theme for the Quiz Competition was "Awareness on the life and workings of Sardar Vallabhai Patel". Total 7 teams participated with four students in each group.

The topics for the Group Discussion were "Unity in Diversity" and "Made in India". Two group discussions were conducted with 10 students in each group. The students spoke about the importance of Unity in today's scenario and how Saradarji was the pioneer in implementing Chanakya's vision of a united India by uniting 550 princely states of pre-Independent India. They also discussed how despite having 29 States in India and 22 diverse languages in India, the vision of a United India put forth by Sardarji is still burning in our mind and hearts. A discussion also happened on the government's vision on the "Made in India" scheme and how it has impacted the nation's outreach in the International Market and its effect on the country's GDP growth.

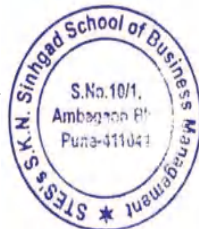

On 31<sup>st</sup> October 2018, the winners of both the events were felicitated at the hands of the Dr. Rajashree Shinde, the Director of SKNSSBM.

**Impact:** This event created awareness amongst the students about the importance of Sardarji in India's freedom struggle and his vision for a United India.

### Assignment - 1

Q.1 Explain meaning and concept of vulnerable and dis-advantaged groups?

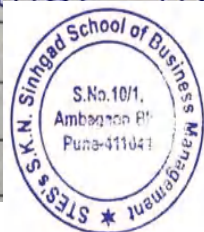

→ Meaning:

Any group or sector of society that is at higher risks of being subjected to discriminatory practices, violence natural or environment disasters or economic hardship than other groups within the state. any group or sector of society that is at higher risk in periods of conflict and crises.

• some typical examples of this are:-

→ When cultural practices restrain women from participating or speaking at community meetings often resulting in under investment in health services literacy programmes water supply system and other interventions typically more valued by women.

→ When the needs of those with HIV / AIDS do not figure among the priorities identified by communities because of shame, denial and social isolation

## Disadvantages of group :-

The disadvantage is a generic term for individuals or group of people who

- face special problems such as physical or mental disability.
- Lack of money or economic support :-

social protection system using a rights based framework should mainstream inclusion in their design implementation and evaluation to ensure that they are accessible by all those who suffer from structural discrimination.

Due to various factors - geographic location sex age ability and citizenship for instance - some groups find themselves facing distinct disadvantages. these conditions may be life long.

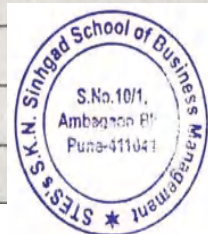

Q.2 Describe socio-economic and cultural problem or vulnerable and disadvantages of groups!

→ 1) Religion affiliation :-

In many societies, members of religious minorities have a heightened vulnerability to minorities have a Traffickers have been known to target women and girls from religious conversions and subsequent marriages. This makes them more susceptible to traffickers frequent fraudulent employment offers or other forms of abuse.

2) sexual orientation and gender identity :-

In 2015 UNHCR reported that 76 countries criminalize consensual same sex sexual conduct. with seven countries offenses, these laws prosecute and stigmatize LGBTI persons even when not enforced the validate discrimination and can lead to an increase in violence and harassment. this is particularly true when authorities do not act to protect all of their citizens and when they fail to investigate and prosecute crimes committed against members of particular groups. in several recent cases in countries that criminalize same sex conduct significant groups have carried out violent acts against LGBTI persons.

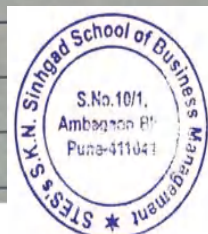

### 3) Migrants fleeing crisis :-

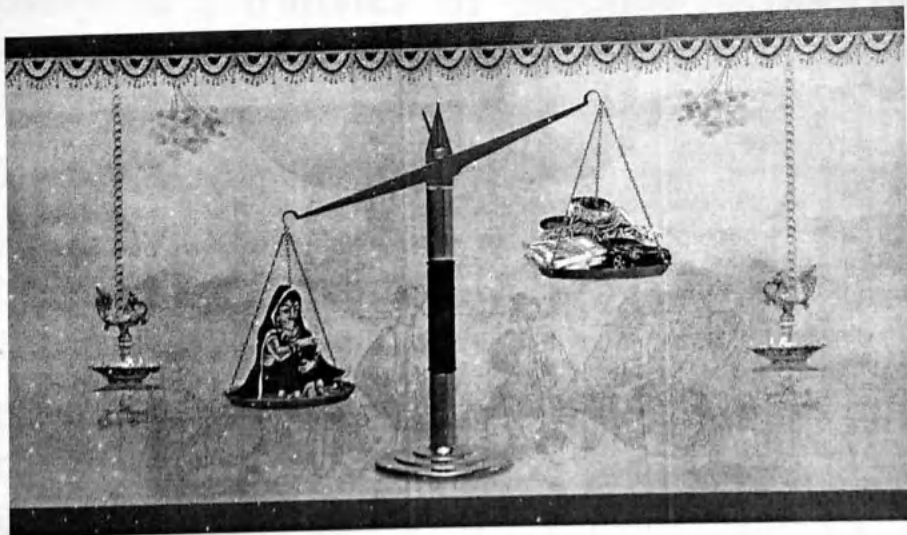

The under predicted flow of migrants including refugees to Europe since the beginning of 2015 has shed light on the challenges of identifying human trafficking victims among migrant people. Some trafficking victims have been identified among those fleeing civil war and unrest and many migrants remain vulnerable to trafficking enroute to or after arriving in Europe. The limited number of confirmed trafficking cases may not be indicative of the size of the problems given the reluctance of victims to seek out authorities or self-identify.

### 4) Disability :-

Owing to cultural and societal stigmas people with disability including individuals with physical, sensory mental cognitive behavioural or other visible and invisible disabilities often lack access to social support networks. Prejudices contribute to biases in how enforcement or judicial system and often to unequal treatment by employees and government services against agencies. Social support networks serve as a means by which person with disability can pursue social and economic inclusion.

Marks 15

1. Women Empowerment :

Women Empowerment plays an important role in today's era. In today's world women are given due importance. And from the purpose of Women Empowerment, women are given rights and powers and also reserved seats are been allocated to women. Also, special safety and precaution policies are allotted to the women. Women education is focused and education for all is the motto. Child Marriage or killing of female fetus, and female honour killing have been put to an end. Women today are eligible to get employed in any field without any discrimination.

2. Child Labour

Child labour have been a great issue, since at many places, children of small age are forced to leave education and are led to work, which creates exploitation of the children, as they are immature. As, a right of every child, according to ammendment, every child has right to learn, right to educate. And so in order to avoid exploitation of children, ie below 14 years of age, government have fuscilitated the various government schools and welfare programmes, in which children have right to attain free education in schools. Also free food and monthly money are provided to these students, so as to make their parent aware of education and letting their children do not work but get educated.

Since 1986, from year year 1985, new ammendments and on child labour, this child Explo were imposed, putting ban ting it illelegal; thus save.

**Report of Orphanage Visit**

**Activity: Orphanage Visit**

**Date: 3/10/2019**

As part of our Corporate Social Responsibility (CSR) initiative, our team visited Serve needy, an orphanage, as a meaningful social activity.

3<sup>rd</sup> October 2019; Student S.K.N Sinhgad School of Business Management with faculty members visited

an Orphanage near Pune. At present 40 to 45 orphan children between 4 to 18 years of age are living in Anath Ashram.

We reached the Orphanage at around 1:30 PM. The children at Anath Ashram were genuinely thrilled to welcome our team. The students greeted us with remarkable enthusiasm, and we had the opportunity to meet the caretaker as well. During our interaction with the caretaker, we learned about the orphanage's history and how it came to be established.

Following that, Faculty members and student volunteers distributed snacks to the children. The students interacted closely with the children, engaging them in various games and enjoyable activities. The atmosphere was filled with excitement and joy, as all the children actively participated.

In a heartfelt gesture, faculty members presented an envelope containing money as a token of love. This monetary contribution was collected by the student volunteers from both students and staff of the college, dedicated to supporting this noble cause. The envelope was handed over to the caretaker.

The team dedicated approximately three hours to spending quality time with the children before bidding a fond farewell to them. The experience was very memorable. It was an unforgettable trip.

## Report

Best out-of-waste simply means to make something innovative and attractive out of the material that is of no use otherwise.

Recycling and reusing the valuable waste material can result in development of fantastic and usable products. Rather than putting these waste materials into the landfills, various innovative and creative ideas can be put together to being something new and useful.

The main objective of conducting this activity is to celebrate “Creativity and Innovation Day” and motivate students for creativity. In order to make students aware of the uses of waste material and to give them a lesson on reducing waste to save our future ‘Best from Waste’ activity was organised at SKN Sinhgad School of Business Management, for the students of MBA. It explored and encouraged creativity in students and offered them a platform to showcase their skill. It also inspired students to think and work creatively and promote artistic excellence.

**Introduction:**

Dr.Roza Parashar introduced this CSR program and the initiative taken by SKNSSBM as below:

Faster up gradation of electronic product is forcing consumers to discard old electronic products very quickly, which, in turn, adds to e-waste to the solid waste stream. The growing problem of e-waste calls for greater emphasis on recycling e-waste and better e-waste management. Reducing the use of plastic is important because plastic production requires an enormous amount of energy and resources. This causes carbon emissions and contributes to global warming. Recycling plastic is not efficient – only 9% of plastic ever produced has been recycled. About 60% is discarded in landfills and oceans. There, it stays for thousands of years, transforming into "micro plastic," leaching into our water supplies and food. People tend to switch over to the newer models and the life of products has also decreased. Reduce, Reuse, Recycle (3Rs) is the model we can students & staff together make awareness about this to society.

SKNSSBM will always play vital role towards issues in society.

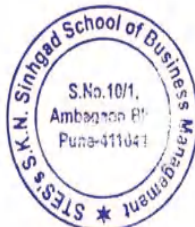

**Inauguration of programme:**

Dr.Prachi Pargaonkar welcomed the guest and inaugurated the drive she added that Adar Poonawala clean initiative and Janwani NGO approached for this event and we decided to organize this drive, 40 student volunteers registered for this event to create awareness and collection of E-waste and Plastic waste at 8 given locations in Sinhgad Road and at our institute SKNSSBM on 19<sup>th</sup> December 2021.
