## Grooming Tips for Women 2

- Scarves and stoles should be made of wool, cashmere, silk or a blend of these fabrics. Some part of the scarf should match at least some colour in your outfit.
- Rings should be few and simple. If possible limit rings to a wedding/ engagement/ anniversary ring and avoid more than two. Big sparklers are not appropriate at the office (unless part of engagement ring)
- Avoid garish nail polish.
- Yours footwear should be well polished. Never wear dirty or worn out shoes.

**Objectives of the activity:    1) To provide knowledge about Advance excel tools and functions**

**2) Students should able to prepare financial model for Business**

**Nature of the Activity: Workshop of 30 Hrs.**

**Brief Report:**

Financial modeling is the process of creating a summary of a company's expenses and earnings in the form of a spreadsheet that can be used to calculate the impact of a future event or decision. Financial modeling is one of the most highly valued, but thinly understood, skills in financial analysis. The objective of financial modeling is to combine accounting, finance, and business metrics to create a forecast of a company's future results. A financial model is simply a spreadsheet which is usually built in Microsoft Excel, that forecasts a business's financial performance into the future. The forecast is typically based on the company's historical performance and assumptions about the future, and requires preparing an income statement, balance sheet, cash flow statement, and supporting schedules (known as a three-statement model). From there, more advanced types of models can be built such as discounted cash flow analysis (DCF model), leveraged buyout (LBO), mergers and acquisitions (M&A), and sensitivity analysis.

Mr. Hrushikesh kale an analytical man with perfect blend on Finance and IT( BE, MBA, CFA, FRM) , Director of Techtoasters conducted financial modelling workshop for MBA-II year Finance students . Following models was discussed and prepared during the workshop:

## Entrepreneurial style

# YOU ARE A MAKER

Makers bring ideas to life through tangible plans. A maker sees the big picture and the smallest details, simplifies complex problems – their strength lies in execution. Simply put, they're great at getting things done. Makers prefer processes and systems over people, and apply their organizational skills across fields.

### CORE DESIRE

SOLVE PROBLEMS  
EFFICIENTLY

### CORE FEAR

LOSING CONTROL

### CORE PRIORITY

PROCESS

### STRENGTHS

- Very disciplined and organized
- Goal-oriented
- Master Planner

You are very good at planning and operational work; coming up with structures, processes, and systems to get things done as efficiently as possible.

### WEAKNESSES

- Does not like to give up control
- Can be dominating or aggressive
- Low emotional quotient

You are naturally focused on process and tasks - you will need to connect with people and be open to new ideas to be an effective leader and entrepreneur.

# Entrepreneurial style

## YOU ARE A MASTER

Experts in their own right, Masters are highly skilled and knowledgeable individuals with great passion for their chosen field. They adhere to high quality standards and expect the same of others. An expert is often looked up to as a role model, thought leader, or influencer in their industry.

**CORE DESIRE**  
BE AN EXPERT

**CORE FEAR**  
BEING AVERAGE

**CORE PRIORITY**  
KNOWLEDGE

### STRENGTHS

• Highly skilled and knowledgeable  
• High standards for excellence  
• Good at seeking out and mastering things better  
• Your experience makes you very valuable. You are a perfectionist.

### WEAKNESSES

- Can be inflexible
- Can become myopic

While you are great at building on your domain expertise, you face the risk of losing sight of the larger picture. Be open to others' opinions and what's beyond your area of expertise.

### Summary of the session

The life transforming seminar held in our college by motivational speaker Mr. Nikhil Sakhre. Our guest is a motivational speaker. He is also a writer, Author, Corporate Trainer, Consultant. He conducted 700+ seminars successfully. According to him, 1.5 lakh personalities have changed by this session. He is the youngest writer in the history of SAKAL newspaper. His book "LIFEGUIDE" is remarked by Achyut Godbole and Yamaji Mankar.

The session started with the statement "**Nothing is Impossible.**" It's only our belief in something which either makes it possible or impossible.

For example, According to all known laws of aviation, there is no way that a bee should be able to fly. Its wings are too small to get its fat little body off the ground. The bee, of course, flies anyway. Because bees don't care for what humans think, is impossible.

### The Universal Laws of Success

There are seven universal laws of success and they are as follows:

#### **1. Law of Unity:**

Even though we are all experiencing our own Illusion of Reality, we all are One. We are the same creature. We all are in Unity with the Omnipotent One. When we Love others, we Love ourselves. When we wish others harm, we wish harm to ourselves. As we judge others, we judge ourselves. As we do unto others, we do unto ourselves. The more completely we Love ourselves, the more completely we Love everyone else, too. We all are One.

#### **2. Law of Thinking:**

You're probably wondering how there could even be a law of thought, but while it may not be a written and scientifically verifiable physical law, such as the law of gravity for example, it is very real nonetheless. So what kind of law would govern thought and how can it be used to any advantage?

The short answer is that the way in which thought is actively used can affect the way in which the body reacts to it and that can directly or indirectly affect a person's health in the physical sense while it can also affect a person's emotional state. In a more ethereal sense, thoughts can also influence the way in which a person lives his/her life, so in that sense, it can dictate to a greater or lesser extent whether the person lives happily, abundantly and fully or they live miserably, in poverty and in a limited and restricted way.

**3. Law of Attraction:**

It is the ability to attract into our lives whatever we are focusing on. It is believed that regardless of age, nationality or religious belief, we are all susceptible to the laws which govern the Universe, including the Law of Attraction. It is the Law of Attraction which uses the power of the mind to translate whatever is in our thoughts and materialize them into reality. In basic terms, all thoughts turn into things eventually. If you focus on negative doom and gloom you will remain under that cloud. If you focus on positive thoughts and have goals that you aim to achieve, you will find a way to achieve them with massive action.

**4. Law of Supply:**

**“Grab the opportunity,”** How many times have we heard that, right? But what does it really mean? Life is the greatest opportunity we've been given. That's step one. Step two is all of the enormous opportunities to grow that God has bestowed upon us. But it's our responsibility to recognize them, grab them, and then act on them sensibly. Most people either aren't paying attention or they don't realize the importance of opportunities. They respond to opportunity in a lethargic manner over a prolonged time. To put it simply, “if we grab the right opportunity at the right time, we will achieve great success in our life.”

**5. Law of Non-Resistance:**

It states that when we resist a condition, person, or thing that we don't like or want, we are adding power to it. This is usually opposite of what we think our resistance is doing. We think by resisting something that it will go away or leave us alone. Resistance keeps us stuck. Non-resistance allows us to go free.

**6. Law of Receiving:**

If you are not receiving the good you want in life, ask yourself, “What can I give, to make way to receive my good?” Then freely and quickly give it! There are those pious souls who will say, “Oh, but when I give, I am not supposed to expect to receive.” And so, of course, they do not receive. Their very attitude blocks their good. Quite the opposite is true: When you give you can and should expect to receive. It is the law of the universe.

**7. Law of Success:**

It states that there is no failure, only the degree of success varies. For example, if an adult and a year old are made to run for a distance, the adult will do it quickly, however the one year old will take some time to do it. He will walk two to three steps, he will fall, again he will get up, walk a few more steps, again he will fall and in the end he will cover the distance.

This doesn't mean that the year old boy failed. Both of them succeeded. Only the degree of success varied.

## **The Universal Techniques of Education (Philosophy of Education)**

There are three universal techniques of education and they are as follows:

### **1. Visualization:**

The formation of a mental image of something is termed as visualization. One should visualize the sessions which were conducted in the class and prepare notes accordingly. Initially the visualization will be less, so will be the notes, however, practice on daily basis will definitely increase the visualization as well as notes.

### **2. Meditation:**

Meditation is a practice of a concentrated focus on a sound, an object, visualization, the breath, the movement, or attention itself in order to increase awareness of the present moment, reduce stress, promote relaxation, and enhance personal and spiritual growth.

### **3. Time management:**

It is the process of organizing and planning how to divide your time between specific activities. One must prepare 3 calendars in order to manage time in a better way. They are term calendar, weekly scheduler and daily organizer.

Apart from this Sir has taken practical experiments which conclude fear and doubt are the two legs standing over our dreams. Various videos and presentation were presented on each law. These practical examples made students belief on the universal laws of success. He provided a form to each student which contains interesting questionnaire. All students have submitted after the seminar to the mentor of seminar.
