## Chandrayan-3 Event

Chandrayaan-3 is the third Indian lunar exploration mission under the Indian Space Research Organisation's (ISRO) Chandrayaan programme. It consists of a lander named Vikram and a rover named Pragyan, similar to those of the Chandrayaan-2 mission. The propulsion module carried the lander and rover configuration to lunar orbit in preparation for a powered descent by the lander. The event was scheduled on 23 Aug 2023. Around 100 to 140 students were present for these

**ABOUT US**  
 Sinhgad Technical Education Society (STES) was established in 1982. It is a group of institutions providing quality education in the field of Engineering, Management, Computer Science, Information Technology and Health Sciences. There are 16 institutions under the aegis of STES offering full-time, distance, diploma, certificate, and certificate courses and PGD programs in various branches of Engineering, Information Technology, Management, Health Sciences, and other allied disciplines. The society is committed to providing quality education and promoting research and development in the field of Engineering, Management, Health Sciences, and other allied disciplines.

**VISION**  
 To provide quality education and promote research and development in the field of Engineering, Management, Health Sciences, and other allied disciplines.

**MISSION**  
 To provide quality education and promote research and development in the field of Engineering, Management, Health Sciences, and other allied disciplines.

**FOR OBJECTIVES**  
 The Faculty Development Program aims to provide a forum for faculty members to be updated in the state of the art of the Recent Advances and Future Trends in Artificial Intelligence, Computer Vision, and NLP. The course will also help to identify future research trends in the interdisciplinary emerging field of AI, CV, and NLP. The course will provide a forum to exchange ideas, ideas, and principles in the field of AI, CV, and NLP. The course will also provide a forum to exchange ideas, ideas, and principles in the field of AI, CV, and NLP.

**SCOPE**  
 The scope of the program includes, encompassing a diverse range of topics that reflect the existing landscape of these cutting-edge technologies. The Application of AI, CV and Computer Vision in the field of AI, CV and NLP. The course will also provide a forum to exchange ideas, ideas, and principles in the field of AI, CV, and NLP.

**ELIGIBILITY**  
 The program is open to the faculty members, research scholars, BEd and PGD students from allied disciplines. Industry personnel attending in the same discipline can also attend the FDP.

**WELCOME YOU**  
 STE Approved Virtual Faculty Development Program (FDP) on "Recent Advances & Future Trends in Artificial Intelligence, Computer Vision & NLP" 26<sup>th</sup> February to 01<sup>st</sup> March 2024  
 Day 2  
 Session Title: Role of Machine Learning in Industry 4.0
