Brief Report

A guest lecture on the topic ‘Aamhi Zadkari ’was organized by our college, on 12th October 2023 under the Institute Social Responsibility cell “PRAYAS”, joining hands together for social cause. The session was presented **Mr. Khushalsingh Garud, President of Aamhi Zadkari Foundation.** The session was on social awareness about tree plantations. The following are some of the points that he preached:

1. **Ganpati Immersion at home:** It speaks to one’s heart about the Ganpati Immersion that we should do our Ganpati Immersion at home, only as it affects our rivers and brook harshly. They gave one suggestion that we can use ‘**Sheti Mati Ganpati**’ instead of using POP. Sheti mati Ganpati can be easily immersed at home and we can use that water for tree plantation.
2. **Aamhi Zadkari’ and ‘Sahhayadri Devrai’** tie-up for a plantation program. In that program, they take seeds of old aged trees for their plantation. It can also help in preventing degradation of old aged plants. They took this program every year in summer.

3. **Seed Rakhi:** This initiative was also taken by them in their organization every year. He also invited us to do the same at home as it helps in the tree plantation initiative. He **discussed upcoming plans** for organization. In that they told us that they are going to start **Mahila Bachat Gat** under which women's would be **allocated with work of beekeeping**, it will help rural women's for their livelihood.
4. **DEVRAI; The ground water campaign:** This involves public outreach, education and advocacy to encourage responsible groundwater use, protection of aquifers, or addressing concerns such as pollution or over extraction of ground water.
5. **Organic fertilizer:** It contains a lot of organic fertilizer but Sir only discussed **worm organic fertilizer**. Their organization also provides training for making and the usefulness of worm organic fertilizer. '**Vanrai Bandhare**', will help rural villages with the scarcity of water.
6. Their organization also does events like **Special Event Tree Plantation Programs**. He also invited us to participate in that program. In that program they plant one tree for special events for the person. He also talked about their initiatives in taking care of those trees. They celebrate maintenance day every month. Sir also talked about the program they organize every year. That is '**Pahune zadkari**'. In that program, they allow all other people who want to do something for nature can participate in this program.

- Outcomes of the activity:**
1. Students get aware about the importance of tree plantation to procure future circumstances.
 2. Students were known about Aamhi Zadkari organization and their initiatives in tree plantation.

2. To Develop the ability to bounce back from setbacks and failures with determination.
3. To Maintain a positive attitude and mindset, which can boost motivation and problem-solving abilities.

Brief Report:

The universal law of success, often associated with the Law of Attraction, suggests that your thoughts and beliefs can influence your outcomes. In simple words, it means that if you think positively, set clear goals, and believe in your abilities, you are more likely to achieve success. It's about focusing on what you want and taking action to make it happen.

The universal law of success is rooted in the idea that your thoughts and emotions can attract corresponding events and outcomes into your life. It's based on the belief that if you consistently think about and visualize your goals, your mind will work to manifest those desires in reality.

Key principles of this concept include:

1. Positive Thinking: Maintain a positive mindset and focus on what you want, not what you don't want.

2. Clarity of Goals: Clearly define your goals and desires to give your mind a specific target to work toward.

3. Belief and Faith: Have faith in your ability to achieve your goals. Believing in your capabilities is crucial.

4. Taking Action: Your thoughts alone are not enough; you must take action towards your goals.

5. Gratitude: Being thankful for what you have can attract more positive experiences into your life. This concept is often considered more of a philosophical or self-help idea, and its effectiveness a topic of debate. Success usually requires a combination of hard work.

Sir also explained following laws:

Law of Unity:

Law of Thinking

Law of Attraction

Law of Resistance

Law of Receiving

Law of Success

Law of Supply

5 habits of unending happiness: Praise, Celebrate, Gratitude, Appreciate, Smile

Outcomes of the activity: 1. These are some key principles that tend to apply universally include setting clear goals, taking consistent action, learning from failures, building meaningful relationships, and maintaining a positive mindset.

found in electronic devices and plastic products. By ensuring that e-waste and plastic waste are collected and processed responsibly, we can minimize the release of harmful chemicals into the soil, water, and air thereby safeguarding ecosystems and human health. Moreover, recycling e-waste and plastic waste can help conserve valuable resources, such as metals, plastics, and other materials, which can be reused in the production of new products. This, in turn, reduces the need for raw material extraction, leading to energy savings and decreased greenhouse gas emissions.

Furthermore, the proper collection and recycling of e-waste and plastic waste support the development of a circular economy, promoting sustainable consumption and production patterns. By encouraging the reuse and refurbishment of electronic devices and plastic materials, we can reduce the overall environmental impact associated with the manufacturing and disposal of these products.

Overall, the responsible management of e-waste and plastic waste is crucial for mitigating environmental pollution, conserving resources, and fostering sustainable development practices that benefit both current and future generations.
