A Study on
“Feasibility of Irradiation Plant at Kolhapur”

Abstract:

This study is proposed to find out the feasibility status of the proposed ‘Irradiation plant’ by Ghadge Patil Industries Ltd in Kolhapur to process the Vegetables, Onions, Fruits and Turmeric. The study will cover the regions of Western Maharashtra, Konkan and Goa.

The objectives of the study are as follows:

1) To find out potential of supply of raw material required for Irradiation
2) To find the export obligations of various countries related to Irradiation
3) To collect the operational details of the existing plant in Mumbai
4) To find out the feasibility of proposed plant at Kolhapur
5) To develop a suitable business model in case the business is feasible
